Magic and Medieval Society Anne Lawrence-Mathers, Carolina Escobar-Vargas, 2014-05-30 *Magic and Medieval Society* presents a thematic approach to the topic of magic and sorcery in Western Europe between the eleventh and the fifteenth century. It aims to provide readers with the conceptual and documentary tools to reach informed conclusions as to the existence, nature, importance, and uses of magic in medieval society. Contrary to some previous approaches, the authors argue that magic is inextricably connected to other areas of cultural practice and was found across medieval society. Therefore, the book is arranged thematically, covering topics such as the use of magic at medieval courts, at universities, and

within the medieval Church itself Each chapter and theme is supported by additional documents diagrams and images to allow readers to examine the evidence side by side with the discussions in the chapters and to come to informed conclusions on the issues This book puts forward the argument that the witch craze was not a medieval phenomenon but rather the product of the Renaissance and the Reformation and demonstrates how the components for the early modern prosecution of witches were put into place This new Seminar Study is supported by a comprehensive documents section chronology who s who and black and white plate section It offers a concise and thought provoking introduction for students of medieval history
