**Directions:** Follow the instructions to go through the simulation. Respond to the questions and prompts in the orange boxes.

**Vocabulary:** amplitude, compression, crest, frequency, linear mass density, longitudinal wave, medium, period, power, refraction, transverse wave, trough, wave, wavelength, wave speed

**Prior Knowledge Questions** (Do these BEFORE using the Gizmo.)

1. A buoy is anchored to the ocean floor. A large wave approaches the buoy. How will the buoy move as the wave goes by?

The buoy will move up and down because the wave will push it.

2. The two images show side views of ocean waves. How are the two sets of waves different?

The two images showing the two different sides of the ocean are different because the first image of the wave is higher than the second image of the ocean wave.

**Gizmo Warm-up**

Ocean swells are an example of **waves**. In the Waves Gizmo, you will observe wave motion on a model of a spring. The hand can move the spring up and down or back and forth.

To begin, check that the **Type of wave** is **Transverse**, **Amplitude** is 20.0 cm, **Frequency** is 0.75 Hz, **Tension** is 3.0 N, and **Density** is 1.0 kg/m. (Note: In this Gizmo, "density" refers to the **linear mass density**, or mass per unit length. It is measured in units of kilograms per meter.)

1. Click **Play** (). How would you describe the motion of a **transverse wave**? Click **Pause** (). Notice the **crests** (high points) and **troughs** (low points) of the wave.

A transverse wave moves from left to right, but the particles inside move up and down. The waves move left to right while the hand moves up and down.

2. Click **Reset** (). Choose the **Longitudinal** wave and increase the **Amplitude** to 20.0 cm. Click **Play**. How would you describe the motion of a **longitudinal wave**? Click **Pause**. Notice the **compressions** in the wave where the coils of the spring are close together and the **rarefactions** where the coils are spread apart.

In this wave, the hand is moving from the left to the right as well as the wave.
