

## *Food Inc. Discussion Questions*

### Chapter One: Fast Food to All Food

1. In the film, food science Professor Larry Johnson says, "If you go and look on the supermarket shelf, I'll bet you 90 percent of [the products] would contain either a corn or soybean ingredient. And most of the time, it'll contain both." Why might it be a problem that the majority of our food is made mostly from just corn and soybeans—so that nearly everything we eat contains them?
2. If animals should have certain rights, do you think those rights also apply to animals we raise for food, like chickens or pigs? Are there any rights that these farm animals should have? If so, what are they?

### Chapter Two: Cornucopia of Choices

3. Whose responsibility do you think it is to inform us about what is in our food? Is it our responsibility to find out, the producer's responsibility to make it more clear, or both? Why do you think so?

### Chapter Three: Unintended Consequences

4. Kevin's mother says, "Sometimes it feels like industry was more protected than my son." What do you think of her words?
5. Do we have the right to assume that our food is safe? If so, who do you think should be responsible for ensuring its safety?
6. Who's responsible for Kevin's death? The meat distributor who sold the meat to the restaurant who wasn't aware the meat was contaminated? a worker at the meatpacking plant whose job is to cut the carcass, responsible for following the procedures set up by the plant? The salesperson at the restaurant who sold the hamburger to Kevin's Mom? The federal court judges who said that the government doesn't have the authority to shut down a meatpacking plant that repeatedly fails contaminant tests? Those who started feeding corn to cows in the first place?

### Chapter Four: The Dollar Menu

7. Would it be okay with you that healthy food is only available to people who can afford it? If so, what might be the consequences of that—both to individuals and society?
8. In the film, author Michael Pollan says, "We've skewed our food system to the bad calories, and it's not an accident." What does he mean by this?
9. Do you think healthy eating should be a right, a responsibility, or a privilege?
