McArdle, Darius McArdle, 2020-06-09 Fun fresh and focused learning Helps develop strong math skills Maximize your child s  
ability to solve math problems Take the mind over math challenge Practice problem solving at home Filled with carefully  
constructed grade appropriate math problems for children ages 8 10 including exercises on conversion ratios data handling  
areas percentages and more 10 Minutes a Day Problem Solving 4th Grade will boost your child s powers of math reasoning  
and sharpen his or her focus in a fresh and fun way 10 Minutes a Day is a series of home learning workbooks closely linked to  
school curricula that helps make learning easy and so much fun It provides quick exercises in math fractions decimals and  
problem solving and language and writing skills spelling vocabulary and phonics for children aged 3 11 years Using the  
attached 10 minute timer these workbooks are ideal for children during time to fill moments at home and are based on the  
effective little and often learning strategy *Mathematics Quick-Looks Grade 4* Edd Bobby Allen, Edd Katrina  
Hardin, 2018-01-18 Mathematics Quick Looks focus on key concepts when teaching math They help simplify students  
conceptual understanding by directing students attention to key concepts and procedures By highlighting the key concepts in  
each lesson teachers can promote students achievement and prepare them for more difficult concepts Math key concepts are  
primary skills that can be continually used to teach a variety of math concepts and processes They provide recognizable  
starting points for students when learning new math concepts and processes Math key concepts are explicitly described and  
modeled by the teacher Vocabulary that is vital to the students conceptual understanding is mastered concurrently with the  
related concepts and processes The fundamental foundation of the Quick Looks includes math concepts and processes that  
can be used within and across domains Quick Looks allow students to focus their attention on these key math concepts and  
processes The skills and vocabulary are methodically taught using unambiguous coaching methods Conceptual  
understanding procedural mastery and vocabulary acquisition are applied seamlessly to new content The math concepts that  
represent foundational understandings that can be applied across domains have been selected and planned into quick lessons  
The lessons take about ten to fifteen minutes to explicitly deliver while allowing students the opportunity to critique their  
mathematical thinking and the thinking of others Teachers will have eight opportunities to explicitly teach the target math  
skill within the context of the math concepts affording students ample practice opportunities for mastering the concepts and  
processes Teachers will communicate the skills using the selected vocabulary and require that students use the key  
vocabulary when expressing their thoughts This instructional strategy positively impacts students of all performance levels  
by focusing teaching and learning on clearly defined concepts The strategy facilitates recall by reducing the amount of  
essential information and providing a universal language for communicating mathematical concepts The use of this

instructional strategy helps students to see the patterns of math in the predetermined skills as well as in more complex concepts and processes thus advocating deeper conceptual mathematical understanding
