POPcorn Facts - Explain to students that they will be counting multiples of 2 about while "blasting and holding their breath" like a corn kernel. When a multiple of 2 is said, students will POP up as they say the multiple of 2, and then return to a small kernel. (Example: 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, etc.)

Directions:

- Students count multiples of 2 - POP with multiples of 100
- Students count multiples of 2 - POP with multiples of 50

Stretch - Use multiplication symbol "x" and ask students what can be said instead of "times". Record items of the "Stretch" on "Stretch" (3 x 4 "Stretch of 3").

Draw - Using the array with counters, have students color the grid to show the same model and write the product. Then, students can turn the paper sideways to see the related fact, using the "Stretch" they see and counting the items in each row. A hand copy is included for teachers to abbreviate lesson.
