new kind of environmentally friendly lemonade stand then you'll likely have to spend the money on equipment or research not on buying lemons and sugar. Second and maybe most importantly, small business grants are hard to qualify for and even harder to find. There's a lot of misinformation, dead old websites, confusing databases, complicated government restrictions, discontinued contests, and more out there. To help out, I have compiled a list of verified startup grants and small business grants for you to check out. I have categorized them in seven different ways so you can figure out which grants are the best option for you to pursue for your business.

The authors frame writing the grant proposal as the final, not too difficult, step in a comprehensive and methodical process. From the first step of determining what kinds of funding are most appropriate, they show readers how to identify a compelling need, analyze the effectiveness of existing programs to address that issue, and develop one or more of these existing programs or create an innovative one that will indeed have an impact. Along the way, they explain how to build a coalition when it is needed to implement the program efficiently. The grant application becomes a showcase for readers' organization, well-designed programs, and dedicated partners.
