## MicroVersaTrip® RMS-9 Programmer

The MicroVersaTrip® RMS-9 system for POWER BREAK® insulated case circuit breakers consists of four parts: the protection programmer, flux-shift trip device, current sensors and rating plugs.

The programmer contains a current sensor-powered, solid-state logic unit and incorporates rotary adjustment switches for up to nine functions, as well as targets for mechanical fault trip indication.

MicroVersaTrip® RMS-9 represents the latest technology in digital solid-state programmers.

### RMS Digital Sensing of Sinusoidal and Non-sinusoidal

MicroVersaTrip® RMS-9 provides accurate overload protection for both sinusoidal and non-sinusoidal currents by direct measurement of the true rms content of the current wave. This is accomplished by microprocessor digital sampling techniques. Therefore, the solid state microprocessor is not affected by component tolerance and does not require compensation for signal distortion. Since the design is based on complementary metal oxide (CMOS) technology, it

is less sensitive to extraneous noise produced by lightning, instrumentation, radio, etc.

The solid state microprocessor technology and fast analog to digital converters make it possible to measure the magnitude of the phase current over a number of time periods within the cycle. The MicroVersaTrip® RMS-9 sampling rate of 27 per cycle for each phase allows for errors of less than 1% on systems with distortions through the 13th harmonic. This digital sampling technique provides the most accurate system protection for distribution systems that include ac and dc variable speed drives,

rectifiers, induction heating, and other loads that cause non-sinusoidal currents.

### Full Function Trip Unit Available with Various Protection Feature Combinations

The MicroVersaTrip® RMS-9 trip line of programmers provides maximum breaker to breaker selectivity and custom load protection. Short-time and Ground Fault functions include the flexibility of coordination with and without an PT ramp. POWER BREAK® circuit breakers are available with Standard Instantaneous
