by the National Council of State Directors of Adult Education Results show that coinciding with the changes to the GED test the number of test takers completers and passers plummeted Test participation decreased by 62.8 percent in 2013 over 22,000 Washingtonians took the test compared to fewer than 9,000 in 2014 The test completion rate decreased by 33.7 percent in 2013 over 18,000 test candidates completed all four subject areas of the test compared to just over 4,000 in 2014 In 2013 over 15,000 completers passed the test compared to just over 3,000 in 2014 From 2008 to 2013 more than 4 percent of Washington adults without a high school credential took the test compared to 1.5 percent in 2014 which has consequences for the Washington s educational attainment goals Possible reasons for the decline in numbers are explored Further research is recommended The following are appended 1 Comparison of 2002 GED test series to 2014 GED test series 2 Alternative pathways to high school completion and 3 Data Tables Contains endnotes
