Homosassa Professional Fishing Guide:

Biology and Management of the World Tarpon and Bonefish Fisheries Jerald S. Ault, 2007-10-01 The core of a multibillion dollar sport fishing industry tarpon and bonefish two of the earth's oldest creatures are experiencing obvious and precipitous population decline Experienced anglers in the Florida Keys suggest a drop of approximately 90-95 percent for the bonefish population over the last 65 years Despite the economic value of the i

Lords of the Fly Monte Burke, 2020-09-01 From the bestselling author of *Saban 4th and Goal* and *Sowbelly* comes the thrilling untold story of the quest for the world record tarpon on a fly rod a tale that reveals as much about Man as it does about the fish In the late 1970s and early 1980s something unique happened in the quiet little town on the west coast of Florida known as Homosassa The best fly anglers in the world Lefty Kreh Stu Apte Ted Williams Tom Evans Billy Pate and others all gathered together to chase the same Holy Grail The world record for the world's most glamorous and sought after fly rod species the tarpon The anglers would meet each morning for breakfast They would compete out on the water during the day eat dinner together at night socialize and party Some harder than others The world record fell nearly every year But records weren't the only things that were broken Hooks lines rods reels hearts and marriages didn't survive either The egos involved made the atmosphere electric The difficulty of the quest made it legitimate The drugs and romantic entanglements that were swept in with the tide would finally make it all veer out of control It was a confluence of people and place that had never happened before in the world of fishing and will never happen again It was a collision of the top anglers and the top species of fish which would lead to smashed lives for nearly all involved man and fish alike In *Lords of the Fly* Burke an obsessed tarpon fly angler himself delves into this incredible moment He examines the growing popularity of the tarpon an amazing fish has been around for 50 million years can live to 80 years old and can grow to 300 pounds in weight It is a massive leaping bullet train of a fish When hooked in shallow water it produces immediate unreality as the late poet and tarpon obsessive Richard Brautigan once described it Burke also chronicles the heartbreaking destruction that exists as a result brought on by greed environmental degradation and the shenanigans of a notorious Miami gangster and how all of it has shaped our contemporary fishery Filled with larger than life characters and vivid prose *Lords of the Fly* is not only a must read for anglers of all stripes but also for those interested in the desperate yearning of the human condition
