Calcaterra,2016-09-19 Advanced End of Day

Trading is the truth of what happens in real life in real time and in real money in the live markets every day There are no short cuts and you must do the time if you want to drive your own money train I try to keep the explanations clear concise

simple and uncomplicated Advanced End of Day Trading gives you substantial value and is going to be the foundation of your advanced trading education The market is not a big secret and all of the information you need to make a trading decision is right out in the open If you know where to find the information and know what to look for you can and will make some money every day in the market provided you are looking at the right information and trading with and against the right people Advanced End of Day Trading can help you keep it simple and filter the huge amount of information out there down to only what you need to know right away and then can work towards adding more information and studies as you go My philosophy is to start small and build on success have limited exposure while you hone your skills then progress as you become more competent and begin using the advanced principles in Advanced End of Day Trading The trading business is no joke I always say there are people in the live market who will walk over dead bodies to get paid and make money so make no mistake they are in there to take all of your money They see you and they know what mistakes you are going to make over and over and over again this is how they get paid Ask yourself this question do I want to be the paying or do I want to be the one who gets paid Using the advanced principles in Advanced End of Day Trading can help you to become consistently profitable in a shorter period of time provided you understand the foundation principles of how supply and demand trading works
