Dennis Sherwood, 2022-08-04 UNCOVERED 1 in 4 EXAM GRADES IS WRONG An important contribution to our thinking
Sixth Form Colleges Association An uncomfortable but important read Headmasters and Headmistresses Conference
Everyone in UK education should reflect upon the problems identified in this powerful book Higher Education Policy Institute
Every summer in Britain one million GCSE and A Level candidates receive results that define their school years and set them
up for their life But those results are gravely unreliable In fact about one grade in four in England is WRONG That is 1 5
million grades every year An A Level grade B might have been an A or even a C had a different examiner marked the script
Similarly a GCSE grade 7 might have received a grade 8 or a 6 For a decade young people and their friends and families have
been unable to grasp the full extent of this randomness Now in this definitive and easy to follow book Dennis Sherwood
explains why so many pupils receive final grades that don't do them justice And he suggests ways to regain trust which apply
to essay based exams throughout the world Reviews Know an A Level student who you were absolutely sure should nail an A
but ended up with a B Well they probably should have got that A but were a victim of this scandal Sherwood's work changed
my outlook Let him change yours too Robert Campbell former Chief Executive Morris Education Trust Dennis has been
challenging our thinking about assessment and the awarding of grades for many years combining detailed research with an
engaging manner and clear explanations this is an important contribution to our thinking Bill Watkin Chief Executive Sixth
Form Colleges Association Dennis Sherwood asks the questions about exam grades that no one really wants to answer His
analysis suggests that much of what we think we know about school exams is based at best on wishful thinking and at worst
on wilful misrepresentation of statistics But he also has some positive suggestions for improvement Missing the Mark is an
uncomfortable but important read Melvyn Roffe Chair Headmasters and Headmistresses Conference Missing a grade can
result in university or college applications being rejected Dennis Sherwood asks the 64 000 question Are grades reliable
enough for the purposes they are supposed to serve This book presents an insightful analysis of this important matter
including the rules introduced in 2016 to reduce the number of appeals the controversial grading processes in 2020 and 2021
when exams were cancelled why real grades are so unreliable and some solutions too Huy Duong parent Everyone in UK
