Free Speech Beyond Words Mark V. Tushnet,Alan K. Chen,Joseph Blocher,2020-02-15 A look at First Amendment coverage of music non representational art and nonsense The Supreme Court has unanimously held that Jackson Pollock s paintings Arnold Sch enberg s music and Lewis Carroll s poem Jabberwocky are unquestionably shielded by the First Amendment Nonrepresentational art instrumental music and nonsense all receive constitutional coverage under an amendment protecting the freedom of speech even though none involves what we typically think of as speech the use of words to convey meaning As a legal matter the Court s conclusion is clearly correct but its premises are murky and they raise difficult questions about the possibilities and limitations of law and expression Nonrepresentational art instrumental music and nonsense do not employ language in any traditional sense and sometimes do not even involve the transmission of articulable ideas How then can they be treated as speech for constitutional purposes What does the difficulty of that question suggest for First Amendment law and theory And can law resolve such inquiries without relying on aesthetics ethics and philosophy Comprehensive and compelling this book represents a sustained effort to account constitutionally for these modes of speech While it is firmly centered in debates about First Amendment issues it addresses them in a novel way using subject matter that is uniquely well suited to the task and whose constitutional salience has been under explored Drawing on existing legal doctrine aesthetics and analytical philosophy three celebrated law scholars show us how and why speech beyond words should be fundamental to our understanding of the First Amendment

Born in Flames Bench Ansfield,2025-08-19 ONE OF THE NEW YORK TIMES 100 NOTABLE BOOKS OF 2025 A KIRKUS REVIEWS BEST BOOK OF 2025 THE SKIPPED HISTORY PODCAST BEST BOOK OF THE YEAR Revelatory Deeply researched and masterfully told Brian Goldstone New York Times Book Review The explosive account of the arson wave that hit the Bronx and other American cities in the 1970s and its legacy today Ladies and gentlemen the Bronx is burning That legendary and apocryphal phrase allegedly uttered by announcers during the 1977 World Series as flames rose above Yankee Stadium seemed to encapsulate an entire era in this nation s urban history Across that decade a wave of arson coursed through American cities destroying entire neighborhoods home to poor communities of color Yet as historian Bench Ansfield demonstrates in Born in Flames the most destructive fires were not set by residents as is commonly assumed but by landlords looking to collect insurance payouts Driven by perverse incentives new government sponsored insurance combined with tanking property values landlords hired torches mostly Black and Brown youth to set fires in the buildings sometimes with people still living in them Tens of thousands of families lost their homes to these blazes yet for much of the 1970s tenant vandalism and welfare fraud stood as the prevailing explanations for the arson wave effectively indemnifying landlords Ansfield s book based on a decade of research introduces the term brownlining for the destructive insurance practices imposed on poor communities of color under the guise of racial redress Ansfield shows that as the FIRE industries finance insurance and real estate eclipsed manufacturing in the 1970s they began profoundly reshaping Black and Brown neighborhoods seeing them as easy sources of profit At every step Ansfield charts the tenant led resistance movements that sprung up in the Bronx and elsewhere as well as the explosion of popular culture around the fires from iconic movies like The Towering Inferno to hit songs such as Disco Inferno Ultimately they show how similarly pernicious dynamics around

insurance and race are still at play in our own era especially in regions most at risk of climate shocks
