Mark Scheme For Economics Standard Level 2014:

The Political Economy of Electricity Mark Cooper, 2017-04-24 Providing critical insights that will interest readers ranging from economists to environmentalists policymakers and politicians this book analyzes the economics and technology trends involved in the dilemma of decarbonization and addresses why aggressive policy is required in a capitalist political economy to create a sea change away from fossil fuels The environmental damage across the globe is a result of the success of capitalist industrialism 250 years of carbon pollution resulting from consumption of fossil fuels to drive the economy and the worldwide aspiration to ever increasing levels of economic development But capitalism has also produced the tools to solve the problems it has created in the form of a technological revolution in low carbon renewables distributed resources and intelligent systems to integrate supply and demand This book comprehensively examines the political economy of electricity and analyzes the challenge of transforming today s electricity sector to meet the dual goals of decarbonization and development expressed in the Paris Agreement Author Mark Cooper defines the dilemma of development and decarbonization as the great challenge facing the electricity industry and documents how the economic resources costs of a 100 percent renewable portfolio has declined to the point that decarbonization can pay for itself making the low carbon renewable technologies that enable desired environmental and public health benefits an easy sell He identifies the substantial benefit of increasing use of information communications and advanced control technologies shows how targeted innovation could speed the transition by a decade or two and lower the overall cost of the transition by as much as half and explains why the flexible multi stakeholder approach of the Paris Agreement is the correct approach *Learning Standards and the Assessment of Quality in Higher Education: Contested Policy Trajectories* Jon Yorke, Lesley Vidovich, 2016-07-13 This book analyses accountability and quality policies relating to learning standards and examines their implications for assessment in higher education Whilst primarily focusing on the Australian setting this analysis is located within a broader frame of reference that includes the United Kingdom UK the United States of America US and the Organisation for Economic Cooperation and Development OECD Across these settings comparative measures of learning have been seen as a policy solution to the problem of proving quality in a globalised and increasingly competitive higher education market Comparative measures of learning depend on the specification of learning standards Learning standards attempt to articulate the capabilities expected of graduates and students achievement of these is determined through the practices of assessment carried out within institutions Quality policy learning standards and assessment practices all intersect within the broader umbrella of accountability with relevance to governments higher education providers employers parents and students The findings reported in this book highlight a number of policy influences including the rising demands for national and international comparative data on learning standards to compare quality and inform student choice in a globally competitive market *Energy Tax and Regulatory Policy in Europe* Ian Parry, Karen Pittel, Herman Vollebergh, 2017-08-11 Concise

introductions to the main issues in energy policy and their interaction with environmental policies in the EU The European Union EU faces critical challenges in energy policy making the most pressing of which are how to achieve the deep greenhouse gas reductions promised at the December 2015 UN Conference of the Parties in Paris and how this effort can be coordinated with already existing policies Energy policy is primarily a member state responsibility and policy makers need an overarching view of the main issues in energy policy and their interaction with environmental policies This volume aims to fill this need offering concise introductions to some of the major issues as well as practical suggestions for policy making The contributors discuss reforms to the EU Emissions Trading System ETS the world s largest carbon market ways to improve the operation and integration of the EU s power grids in terms of both supply and demand changes to the EU s Energy Tax Directive which sets tax floors for fuels outside the ETS the coordination of climate policies with policies to promote renewables and energy efficiency research into clean technology challenges to shale gas development and transportation policy and the need for action on such externalities as traffic congestion Finally contributors consider obstacles to reform including its potential effects on vulnerable households and energy intensive industries Contributors Mikael Skou Andersen Niels Anger Bruno De Borger Antoine Dechezlepr tre Jos Delbeke Ottmar Edenhofer Christian Flachslan Beatriz Gaitan Polona Gregorin Cameron Hepburn Alan Krupnick Andreas L schel Claudio Marcantonini Felix Christian Matthes Paul Nahmmacher Ian Parry Karen Pittel David Popp Stef Proost Christina Roolfs Bert Saveyn Oliver Schenker Stephen Smith Alexander Teytelboym Kurt Van Dender Herman Vollebergh Nils Henrik M von der Fehr Zhongmin Wang Georg Zachmann
