Question 6.1

1. What happens if the price of a perfectly competitive market is set above the market equilibrium price? Explain. Answer: A perfectly competitive market is a market in which the price is determined by the market equilibrium. If the price is set above the market equilibrium price, the quantity demanded will be greater than the quantity supplied, creating a shortage. This shortage will lead to a decrease in the price of the product, which will eventually bring the market back to equilibrium.
