

Guided Practice in the Classroom

What is Guided Practice?

Guided practice is an approach to educational instruction based on the sociocultural theory of learning and teaching. It involves the use of teacher guidance and facilitation that is gradually released as students develop competence with a task or skill.

The 'I do, We do, You do' method of Guided Practice

| Steps | Pedagogical Strategies | Description |
|-----------|------------------------|--|
| 1. I Do | Teacher Modelling | Teacher models the task by breaking it down into clear, understandable steps. Students observe, take notes and ask questions. |
| 2. We Do | Co-Construction | Teacher and students complete task in groups. Students are encouraged to ask questions, predict the next steps, plan ahead and debate the best ways to complete the task. |
| 3. You Do | Facilitation | Students attempt to do the task alone or in pairs with the guidance of the teacher. Teacher provides prompts, open-ended questions, nudges and visual aids as a form of scaffolding. |
| 4. You Do | Independent Practice | Students do the task independently without teacher facilitation in various different contexts to demonstrate competency. |
