Mobile Learning in Higher Education in the Asia-Pacific Region Angela Murphy, Helen Farley, Laurel Evelyn Dyson, Hazel Jones, 2017-07-06 If mobile technologies are to be effectively used in education how do we best implement sustainable mobile solutions for teaching and learning The aim of this handbook is to support educators and policy makers who are investing in innovations in digital education to develop effective and sustainable mobile learning solutions for higher education environments Authors from sixteen countries across the Asia Pacific region have collaborated to share their experiences with developing and implementing mobile learning initiatives These projects focus on a variety of aspects of mobile learning innovation from the trial adoption of existing social media platforms on mobile devices and the development of specialised applications or mobile learning systems to the large scale interuniversity implementation of technologies and pedagogies to support mobile learning Each chapter addresses challenges and solutions at one or more levels of mobile learning innovation within the education system encompassing the student perspective the educator perspective technical processes policies and organisational strategy and leadership The book also offers a unique perspective on the integration of mobile learning innovations within the educational political and cultural environments of Asia Pacific countries "Code of Massachusetts regulations, 2014" ,2014 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020 **Slow Burn** R. Jisung Park, 2025-07-29 How the subtle but significant consequences of a hotter planet have already begun from lower test scores to higher crime rates and how we might tackle them today It s hard not to feel anxious about the problem of climate change especially if we think of it as an impending planetary catastrophe In *Slow Burn* R Jisung Park encourages us to view climate change through a different lens one that focuses less on the possibility of mass climate extinction in a theoretical future and more on the everyday implications of climate change here and now Drawing on a wealth of new data and cutting edge economics Park shows how climate change headlines often miss some of the most important costs When wildfires blaze what happens to people downwind of the smoke When natural disasters destroy buildings and bridges what happens to educational outcomes Park explains how climate change operates as the silent accumulation of a thousand tiny conflagrations imperceptibly elevated health risks spread across billions of people pennies off the dollar of productivity fewer opportunities for upward mobility By investigating how the physical phenomenon of climate change interacts with social and economic institutions Park illustrates how climate change already affects everyone and may act as an amplifier of inequality Wealthier households and corporations may adapt quickly but without targeted interventions less advantaged communities may not Viewing climate change as a slow and unequal burn comes with an important silver lining It puts dollars and cents behind the case for aggressive emissions cuts and helps identify concrete steps that can be taken to better manage its adverse effects We can begin to overcome our climate anxiety Park shows us when we begin to tackle these problems locally : **Code of Federal Regulations, Title 26,**
