Introduction To Product Service System Design:

Introduction to Product/Service-System Design Tomohiko Sakao, Mattias Lindahl, 2009-11-27 Introduction to Product Service System Design contains a collection of practical examples demonstrating how to design a PSS in industry These recent examples are the results of applying various theories developed in different countries and therefore accommodating diverse cultural differences Providing a useful overall guide to the state of the art in theory and practice each chapter covers the cutting edge of a different methodology or practice The book's focus on design is also evident in the discussion of how to anticipate and utilize the various dynamics within each dimension Introduction to Product Service System Design will help improve working processes and inspire creative thinking for the wide range of people involved in designing a PSS designers marketing professionals sales staff production engineers and service engineers It can also serve as a reference book for university students on advanced courses

Product-Service System Design for Sustainability Carlo Vezzoli, Cindy Kohtala, Amrit Srinivasan, Liu Xin, Moi Fusakul, Deepta Sateesh, J.C. Diehl, 2017-09-08 This book based on a huge European and Asian research project is a state of the art examination of the theory and practice of system innovation through Product Service System PSS design for sustainability from a trans cultural viewpoint PSS design incorporates innovative strategies that shift businesses away from simply designing and selling physical products to developing integrated systems of products and services that satisfy human needs The book provides background advice and tools for designers interested in sustainable PSSs and has a wealth of case studies for practitioners to digest

Product-Service Integration for Sustainable Solutions Horst Meier, 2013-03-14 An Industrial Product Service System is characterized by the integrated and mutually determined planning development provision and use of product and service shares including its immanent software components in Business to Business applications and represents a knowledge intensive socio technical system Meier Roy Seliger 2010 Since the first conference in 2009 the CIRP International Conference on Industrial Product Service Systems has become a well established international forum for the review and discussion of advances research results and industrial improvements Researchers from all over the world have met at previous IPS2 conferences in Cranfield 2009 Link ping 2010 Braunschweig 2011 and Tokyo 2012 In 2013 the 5th CIRP International Conference on Industrial Product Service Systems is held in Bochum Important topics of IPS2 research presented at the conference are planning and development sustainability business models operation service engineering knowledge management ICT modeling and simulation marketing and economic aspects as well as the role of the human in IPS2

The Philosopher's Stone for Sustainability Yoshiki Shimomura, Koji Kimita, 2012-09-26 Industrial Product Service Systems IPS2 which is defined as an integrated industrial product and service offering that delivers value in use has expanded rapidly over the last decade IPS2 has allowed us to achieve both high added value and high productivity and has enriched our QOL by improving the performance of products and services We are now struggling with many awkward issues related to sustainability but IPS2 is expected to be the philosopher's stone for solving

these issues Following the pattern of conferences held in Cranfield in 2009 Link ping in 2010 and Braunschweig in 2011 the fourth International CIRP Conference on Industrial Product Service Systems held on November 8 9 2012 in Tokyo will cover various aspects of IPS2 Topics planned for this year s conference reflect the latest IPS2 information in both the natural sciences and humanities and include case studies from various industries IPS2 is still a relatively new field so it is important to keep track of the entire context in order to promote more cross sectional cooperation between multimodal fields and disciplines The fourth International CIRP Conference on Industrial Product Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas
