Manual Cameras Research:

Camera Trapping for Wildlife Research Francesco Rovero, Fridolin Zimmermann, 2016-06-18 Camera trapping is a powerful and now widely used tool in scientific research on wildlife ecology and management. It provides a unique opportunity for collecting knowledge investigating the presence of animals or recording and studying behaviour. Its visual nature makes it easy to successfully convey findings to a wide audience. This book provides a much needed guide to the sound use of camera trapping for the most common ecological applications to wildlife research. Each phase involved in the use of camera trapping is covered: Selecting the right camera type, Set up and field deployment of your camera trap, Defining the sampling design, presence/absence, species inventory, abundance, occupancy at species level, capture, mark, recapture for density estimation, behavioural studies, community level analysis, Data storage, management and analysis for your research topic with illustrative examples for using R and Excel. Using camera trapping for monitoring, conservation and public engagement. Each chapter in this edited volume is essential reading for students, scientists, ecologists, educators and professionals involved in wildlife research or management.

Transportation Research Record, 2002 For more than 50 years the Transportation Research Record has been internationally recognized as one of the preeminent peer reviewed journals for transportation research papers from authors in the United States and from around the world. One of the most cited transportation journals, the TRR offers unparalleled depth and breadth in the coverage of transportation topics from both academic and practitioner perspectives. All modes of passenger and freight transportation are addressed in papers covering a wide array of disciplines including policy, planning, administration, economics and financing, operations, construction, design, maintenance, safety and more. The Unobtrusive Researcher Allan Kellehear, 2020-08-27 What does graffiti reveal about social behaviour? Where can you find out about Australian social values without doing your own survey? There is more to social research than surveys and in depth interviews. The Unobtrusive Researcher looks beyond the limited accounts people provide of themselves to examine society at a deeper level. Written in a clear, easy to read style, The Unobtrusive Researcher is a practical guide to a range of methods that can supplement and at times even replace conventional social research. It is essential reading for new and experienced researchers in the Social Sciences, Education, Communication Studies and Cultural Studies. Methods discussed include library and archival work, audiovisual sources, observation techniques, material culture, the use of cameras and computers. Witty, clear and concise, a remarkable overview of the field. Professor Bryan Turner, Deakin University. One of the few guides to research methods which takes on board the implications of poststructuralist theory for research. The Unobtrusive Researcher will be useful both for practising researchers wanting to broaden and update their approaches and those at the very beginning of learning how to do research. Professor Ann Curthoys, University of Technology Sydney
