

## Installing in Excel 2007

Before you can use IBM ILOG CPLEX for Microsoft Excel to solve problems, you must first register the XLL (Excel Add-In) file that contains the CPLEX solver as an add-in with Microsoft Excel. This section contains the procedure for doing this with Excel 2007.

1. Locate the `cplex121.xll` file on your computer.

By default this file is installed in `<cplexinstalldir>\excel`.

**Note:** We recommend that you do not move this XLL file from its default location, because there are several "support" files in the same directory that are required to make context-sensitive Help function properly.

2. Open Excel 2007. Click the round **Office** button  in the upper left of the Excel window.
3. In the pop-up menu, click the **Excel Options** button at the bottom right of the window.
4. When the Excel Options window appears, click **Add-Ins** in the left pane to display that wizard in the right pane.
5. At the bottom left of the Add-Ins pane, choose **Excel Add-Ins** from the **Manage** drop-down list and click the **Go** button beside it.
6. On the popup window, click **Browse** and navigate to the location of the `cplex121.xll` file, select it, and click **OK**.
7. When you return to the Add-Ins pane of the Excel Options window, verify that **CPLEX 12.1.0 Excel Solver** has been added to the list of available add-ins.

8. Finally, click **OK** to close the Excel Options window and return to Excel 2007.
