Motif Xf Manual:

Motif Programming Manual Dan Heller, Paula M. Ferguson, David Brennan, 1994 Describes how to write applications using the Motif toolkit from the Open Software Foundation OSF going into detail on every Motif widget class with useful examples to help programmers develop their own code Tips on programming in general are also included The authors assume competence with C and familiarity with fundamental X Window System concepts Chapters are marked by uncut tabs for easy location The manual is updated for Motif 1.2 but still usable for Motif 1.1 Annotation copyright by Book News Inc Portland OR

Readings in Human-Computer Interaction Ronald M. Baecker, 2014-06-28 The effectiveness of the user computer interface has become increasingly important as computer systems have become useful tools for persons not trained in computer science In fact the interface is often the most important factor in the success or failure of any computer system Dealing with the numerous subtly interrelated issues and technical behavioral and aesthetic considerations consumes a large and increasing share of development time and a corresponding percentage of the total code for any given application A revision of one of the most successful books on human computer interaction this compilation gives students researchers and practitioners an overview of the significant concepts and results in the field and a comprehensive guide to the research literature Like the first edition this book combines reprints of key research papers and case studies with synthesizing survey material and analysis by the editors It is significantly reorganized updated and enhanced over 90% of the papers are new An invaluable resource for systems designers cognitive scientists computer scientists managers and anyone concerned with the effectiveness of user computer interfaces it is also designed for use as a primary or supplementary text for graduate and advanced undergraduate courses in human computer interaction and interface design Human computer interaction historical intellectual and social Developing interactive systems including design evaluation methods and development tools The interaction experience through a variety of sensory modalities including vision touch gesture audition speech and language Theories of information processing and issues of human computer fit and adaptation
