**The Black/White Academic Achievement Gap and Mocombe's Reading Room Series Curriculum** Paul C. Mocombe,2020-09-04 This work explores the concept of structural reproduction and differentiation through the origins of and basis for Paul C Mocombe s Mocombeian Strategy 2005 and Reading Room Curriculum published as Mocombe s Reading Room Series 2007 It highlights how black American practical consciousness and the academic achievement gap are a product of capitalist forces relations of production and their ideological apparatuses As such it is argued here that to resolve the gap black Americans should be treated as immigrant students against their structurally differentiated identities

The Oppositional Culture Theory Paul C. Mocombe,Carol Tomlin,2010-10-11 Mocombe and Tomlin explore the black white achievement gap in America and Great Britain gaining understanding through black bourgeois living and the labeled pathologies of the black underclass Within the class dualism of capitalist social relations blacks throughout the Diaspora attempt to exist in the world Furthermore blacks must construct their identities and be in the world by choosing between the discursive practices of the Protestant and capitalist ideology of the black Protestant bourgeoisie or the beliefs of the black underclass which appear to dismiss these practices as acting white John Ogbu s term Presently the practical consciousness constituted as hip hop culture of the black underclass supported by finance capital have dominated the American and global social structure and one of its dys functions is the black white achievement gap which is a global phenomenon emanating from black America and affecting blacks around the globe Although the histories of blacks in America and in Great Britain are fundamentally different Mocombe and Tomlin argue in this work that during the age of globalization the social functions of the dominating black

consciousness hip hop culture coming out of America are the locus of causality for the black white achievement gap in America and Great Britain Tomlin highlights this problematic by analyzing effective strategies employed by high achieving blacks in Great Britain and Mocombe does the same through an analysis of an effective reading curriculum in an American inner city after school program
