Federal Supplement, 1987 **Chiropractic, Health Promotion, and Wellness** Meridel I. Gatterman, 2006-06-14
Chiropractors have traditionally counseled patients on health promotion and wellness For a better understanding of this role
Chiropractic Health Promotion and Wellness offers questions and answers across a range of topics including nutrition
exercise and health behaviors The doctor of chiropractic as a wellness provider promotes not just spinal health but an
encompassing model of health and wellness This must have resource provides easy to understand practical information on
the ways chiropractors work as partners with individuals in patient centered atmospheres to improve wellness **Official**
Manual, State of Missouri, 2007 **A Philosophy of Chiropractic** Phillip Ebrall PhD, 2024-11-29 Chiropractic Philosophy
is a Chiropractor's self belief the Philosophy of Chiropractic is a scientific examination of the discipline This book is a report
of my examination of Chiropractic It will mean little to those reliant on self belief **Trade Cases** Commerce Clearing
House, 1987 **Chiropractic Medicine** Robert Hartmann McNamara, 2018-11-27 From its very beginning chiropractic
medicine has faced challenges about the scientific validity of the treatment and the credibility of its practitioners Since those
early years many of these criticisms have remained but legislation licensure and litigation have created an environment
where chiropractic care is allowed in all 50 states and licenses are required of all chiropractors who wish to practice
medicine The implementation of the Affordable Care Act has changed the way insurance companies provide reimbursement
for services by medical providers With a greater emphasis on administratively documenting how and in what ways a
particular form of treatment actually improves a patient's health coupled with a greater level of restriction on the types of
services medical providers can offer without justification and authorization many medical providers including chiropractors
have had to re-examine the services they provide and how they operate This study attempts to explore the life of
chiropractors in light of all the historical and current changes taking place within the medical profession It also seeks to
understand the external and internal threats posed to chiropractors with an eye towards understanding how and in what
ways the future of medicine will impact the chiropractic profession Despite the projected growth of job opportunities for
chiropractors between 2014 and 2024 which according to the U S Department of Labor is occurring at a much faster than
average trajectory than other professions U S Department of Labor Statistics 2015 given the costs involved in completing
chiropractic training which can exceed 200 000 coupled with the low salary recent data from the U S Department of Labor
Statistics shows that the median salary for a chiropractor is 64 440 per year along with the challenges of sustaining an
individual practice most chiropractors are self-employed in solo practice these obstacles are formidable ones This is
particularly true in light of the recent development of large chiropractic chains such as the Joint that offer spinal and neck
adjustments at a fraction of the cost of a traditional provider This ethnographic study consisted of systematic observation and
interviews of 40 chiropractors in South Carolina from Fall 2016 to Fall 2017 Additionally interviews were conducted with

staff members patients and other medical providers such as physicians physical therapists massage therapists and representatives from the insurance industry about their understanding and experiences with chiropractic medicine Phone interviews were also conducted with seven deans and provosts at chiropractic colleges around the country In total over 100 interviews and informal conversations occurred during the course of the project All identifiers of participants and chiropractic colleges in the study were removed to ensure anonymity Instead pseudonyms were created that were known only by the author of the study Additionally data from the South Carolina Department of Labor Licensing and Regulation was obtained to document changes in the number of chiropractors who are no longer in practice in the state between 2016 and 2017
