## Geography 11 Nsc Paper:

Reconsidering Sputnik Roger D. Lanius, John M. Logsdon, Robert W. Smith, 2013-05-13 This book explores Russia's stunning success of ushering in the space age by launching Sputnik and beating the United States into space. It also examines the formation of NASA, the race for human exploration of the moon, the reality of global satellite communications, and a new generation of scientific spacecraft that began exploring the universe. An introductory essay by Pulitzer Prize winner Walter A. McDougall sets the context for Sputnik and its significance at the end of the twentieth century.

**The Cyprus Conspiracy** Brendan O'Malley, Ian Craig, 2001-06-25 In 1974 the Greek colonels ousted the Greek Cypriot leader of Cyprus Archbishop Makarios and Turkey retaliated by invading and seizing a third of the island. Cyprus remains split in two like Berlin before the wall came down, bristling with troops and spying bases and permanently policed by the United Nations. Henry Kissinger claimed he could do nothing to stop the coup because of the Watergate crisis, but this book presents evidence to support the view that it was no failure of American foreign policy but the realization of a long-term plot. The authors describe the strategic reasons for Washington's need to divide the island. Their account encompasses an international cast of characters that includes Eden, Eisenhower, Nixon, Kissinger, Wilson, Callaghan, Grivas, and the leaders of the two halves of the divided island: Clerides and Denktas.
