Geography 2014 Ieb Guideline:

The Changing Space Economy of City-Regions Koech Cheruiyot, 2017-10-30 This book addresses the South African Space Economy and its stark disparities and dualisms through an assessment of the Gauteng City Region the largest economic agglomeration in the country and on a continent bedeviled by a myriad of development challenges The book's focus on understanding the overall character of Gauteng City Region's Space Economy through data mining analysis and mapping comprehensively supplements the Space Economy literature on the region It covers the disparities exacerbated by an overlay of apartheid planning ideology and top down regional development based on selective encouragement of manufacturing investments in growth points or poles and how implementation of past policies intended to cure these disparities have yielded mixed results This book further offers the Gauteng City Region as a microcosm of the national economy in the form of evident significant place based variations in the intensity and character of economic structure that on the one hand enjoys massive agglomeration economies while on the other has high levels of poverty and large numbers of people living below the Minimum Living Level This book should appeal to urban studies specialists economists and development studies researchers in the Global South

Vernacular and Earthen Architecture: Conservation and Sustainability Camilla Mileto, Fernando Vegas López-Manzanares, Lidia García-Soriano, Valentina Cristini, 2017-09-01 Vernacular architecture in general and earthen architecture in particular with their rich variety of forms worldwide are custodians of the material culture and identity of the peoples who built them In addition they are widely recognized as ancestral examples of sustainability in all their variants and interpretations and the architecture of the present ought to learn from these when designing the sustainable architecture of the future The conservation of these architectures seemingly simple yet full of wisdom is to be undertaken now given their intrinsic value and their status as genuine examples of sustainability to be learnt from and interpreted in contemporary architecture Vernacular and earthen architecture Conservation and Sustainability will be a valuable source of information for academics and professionals in the fields of Environmental Science Civil Engineering Construction and Building Engineering and Architecture
