Introduction To Criminology 2012 Question Paper:

Decolonizing the Criminal Question Ana J. Aliverti, Ana Aliverti, Henrique Carvalho, Anastasia Chamberlen, Máximo Sozzo, 2023 This volume explores the uneasy relationship between crime crime control and colonialism foregrounding the relevance of the legacies of this relationship to criminological enquiries It invites and pursues a better understanding of the links between imperialism and colonialism on the one hand and nationalism and globalisation on the other **The African Book Publishing Record** ,2013 Police Powers and Citizens' Rights Layla Skinns, 2019-01-31 Police detention is the place where suspects are taken whilst their case is investigated and a case disposal decision is reached It is also a largely hidden but vital part of police work and an under explored aspect of police studies This book provides a much needed comparative perspective on police detention It examines variations in the relationship between police powers and citizens rights inside police detention in cities in four jurisdictions in Australia England Ireland and the US exploring in particular the relative influence of discretion the law and other rule structures on police practices as well as seeking to explain why these variations arise and what they reveal about state citizen relations in neoliberal democracies This book draws on data collected in a multi method study in five cities in Australia England Ireland and the US This entailed 480 hours of observation as well as 71 semi structured interviews with police officers and detainees Aside from filling in the gaps in the existing research this book makes a significant contribution to debates about the links between police practices and neoliberalism In particular it examines the police not just the prison as a site of neoliberal governance By combining the empirical with the theoretical the main themes of the book are likely to be of utmost importance to contemporary discussions about police work in increasingly unequal societies As a result it will also have a wide appeal to scholars and students particularly in criminology and criminal justice *Corrections* Mary K. Stohr, Anthony Walsh, 2019-12-10 Written by two academic scholars and former practitioners *Corrections From Research to Policy to Practice* Second Edition offers students a 21st century look into the treatment and rehabilitative themes that drive modern day corrections Authors Mary K Stohr and Anthony Walsh expertly weave together research policy and practice to give readers a foundational understanding of the field of corrections Readers will gain a comprehensive and practical understanding of corrections as well as exposure to often overlooked topics including correctional programming and treatment special problem solving courts and comparative corrections **The Politics of Prison Crowding** Simone Santorso, 2023-02-14 The Politics of Prison Crowding investigates recent transformations in Italy s penal system to make the key analytical observation that conditions of overcrowding have become the new normal under which the modern prison system continues to operate and deliver punishment Engaging with the politics of crowding thus entails a direct and pertinent engagement with the modern state s politics of criminal justice and social control Worldwide over the last decades a growing number of jurisdictions have prison systems operating above or to the limit of their capacity yet little attention has been paid to these elements in the analysis of prison politics and day to day

functions By exploring the crowding issue this book offers an original and interesting insight into the politics and dynamics characterising contemporary prison systems The hypothesis of this book is that the politics of prison crowding have become the template for the daily administration of the prison system which incorporates not just policy and rules but day to day functions and practices regulating life behind bars Through interviews in modern Italian prisons the book brings to light a radical redefinition of a carceral system that harshens the delivery of punishment while justifying this exacerbation of pain by adding new bureaucratic logic to the administration of the penal system within a narrative of compliance to human rights standards By shedding new light on prison politics to open new critical perspectives and research paths The Politics of Prison Crowding offers a fundamental tool to scholars students and all professional policymakers and practitioners dealing with prison policies and the politics of justice

Electric-Shock Weapons, Tasers and Policing Abi Dymond,2021-10-24

Building on five years of research and drawing on criminology science and technology studies STS socio legal studies and social psychology this book is the first non medical book written on electric shock weapons of which the best well known is the TASER brand The police s ability to use force is one of their most crucial powers yet one that has been relatively neglected by criminology This book challenges some of the myths surrounding the use of these weapons and considers their human rights implications and impact on members of the public and officers alike Drawing on STS it also considers the role and impact of electric shock technologies examines the extent to which technologies and non human agency may also play a role in shaping officer decision making and discretion and contributes to long standing debates about police accountability This is essential reading for policing scholars around the world particularly those engaged with use of force culture and accountability as well as those engaged with Science and Technology studies
