Financial Accounting Irvin N. Gleim, William Arthur Collins, 1983 **EBOOK: Financial Accounting (GE), 8e** Robert Libby, Frank Hodge, Patricia Libby, 2016-04-16 EBOOK Financial Accounting GE 8e **Financial Accounting and Reporting** Bryan J. Austin, 1999 This text is designed primarily for those introductory financial accounting courses where the focus is on a balance between the understanding and use of accounting information and its preparation. Provided with a backdrop of contemporary management and financial concerns, students will see that accounting is a significant part of the world it purports to portray and that it is not an end in itself. On the contrary, students are provided the perspective that accounting information is a critical instrument in presenting a corporation's financial picture to important external constituencies. The raising of issues and concerns springing from this orientation facilitates a focus on substance and also frames the student's learning because they have the comfort of a more familiar general business context for thinking about the accounting issue at hand.
