Hartwell, Kathryn Cramer, 2006-07-11 The best ever anthology of one of science fiction's most vigorous subgenres **Enterprise Mac Administrators Guide** Charles Edge, Zack Smith, Beau Hunter, Roderick Smith, 2010-05-10 Charles Edge Zack Smith and Beau Hunter provide detailed explanations of the technology required for large scale Mac OS X deployments and show you how to integrate it with other operating systems and applications Enterprise Mac Administrator's Guide addresses the growing size and spread of Mac OS X deployments in corporations and institutions worldwide In some cases this is due to the growth of traditional Mac environments but for the most part it has to do with switcher campaigns where Windows and or Linux environments are migrating to Mac OS X However there is a steep culture shock with these types of migrations The products that are used are different the nomenclature is different and most importantly the best practices for dealing with the operating system are different Apple provides a number of tools to help automate and guide IT toward managing a large number of Mac OS X computers it has since before Mac OS X was initially released However if you want to put together all of the pieces to tell a compelling story about how to run an IT department or a deployment of Macs you need to compile information from a number of different sources This book will provide explanations of the technology required Provides complete solutions for the large and medium scale integration of directory services imaging and security Complete guide for integrating Macs and Mac OS X into mixed environments with confidence and no down time One stop volume for IT professionals who need the technical details to get their job done as efficiently and effectively as possible *Cars of the Soviet Union* Andy Thompson, 2008 The story of the Soviet Union's cars has to be seen in the context of a planned society in which everything was planned well in advance and consumer items were not a priority until well after the Second World War This extraordinarily detailed study charts the history of Soviet cars from the birth of the Soviet Union in 1917 until its demise in 1990 with a conclusion about the post Soviet era It is the story of an insular state run car industry in which the carefully thought out ideas of ministerial planners rather than fickle customers in a free market determined what cars were made in a country where the open road was often a 300 mile track across a windswept steppe **Digest**, 1916 Architectural Record, 1994 St Petersburg Catriona Kelly, 2014-02-28 DIVFragile gritty and vital to an extraordinary degree St Petersburg is one of the world's most alluring cities a place in which the past is at once

ubiquitous and inescapably controversial Yet outsiders are far more familiar with the city's pre 1917 and Second World War history than with its recent past

In this beautifully illustrated and highly original book Catriona Kelly shows how creative engagement with the past has always been fundamental to St Petersburg's residents Weaving together oral history personal observation literary and artistic texts journalism and archival materials she traces the at times paradoxical feelings of anxiety and pride that were inspired by living in the city both when it was socialist Leningrad and now Ranging from rubbish dumps to promenades from the city's glamorous center to its grimy outskirts this ambitious book offers a compelling and always unexpected panorama of an extraordinary and elusive place
