La Constitution De Leurope

Valéry Giscard d'Estaing

La Constitution De Leurope:

La constitution de l'Europe Paul Magnette, Université libre de Bruxelles. Institut d'études européennes, 2002-01-01

La constitution de l'Europe Paul Magnette, 2000 Ces textes contribuent à alimenter le débat de création d'une Constitution européenne avec notamment la principale question posée peut-on doter l'Union européenne qui n'a pas vocation de devenir un état d'une Constitution Une quipie internationale de politologues juristes et philosophes tente de répondre ces interrogations

The Many Constitutions of Europe Suvi Sankari, 2016-03-03 This volume makes a contribution to the ongoing lively discussion on European constitutionalism by offering a new perspective and a new interpretation of European constitutional plurality The book combines diverse disciplinary approaches to the constitutional debate It brings together complementing contributions from scholars of European politics economics and sociology as well as established scholars from various fields of law Moreover it provides analytical clarity to the discussion and combines theory with more practical and critical approaches that make use of the constitutional toolbox in analysing the tensions between the different constitutions The collection is a valuable point of reference not only for scholars interested in European studies but also for graduate and post graduate students

La constitution de l'Europe Jürgen Habermas, 2012 L'union européenne est elle désormais contre la démocratie Avec l'épisode du référendum grec et l'effroi qui saisit tous les dirigeants de voir un peuple auquel on avait imposé une cure problématique entrer en résistance la crise de la dette a révélé le déficit démocratique des institutions européennes Jürgen Habermas nous alerte sur les risques que prend l'Europe s'engager dans une voie post-démocratique pour régler la question de la dette des pays de la zone euro L'union monétaire européenne ne disposant pas d'un contrôle supra national sans mesure les dirigeants allemand et français veulent une collaboration intergouvernementale renforcée Le Conseil européen doit s'employer à la mettre en place Ce changement en apparence minimal devrait se traduire par une perte progressive de contrôle des Parlements nationaux sur les lois de finances cette réforme insidieuse asphyxierait petit à petit le poumon de la démocratie à l'échelle nationale sans que cette perte soit compensée au niveau européen Le processus grec ouvre-t-il le passage d'une Europe de gouvernement à une Europe de la gouvernance joliment euphémisée pour désigner une forme dure de domination politique qui ne repose que sur le fondement faiblement légitimé des traités internationaux La démocratie d'un seul pays n'est plus même de se défendre contre les injonctions d'un capitalisme forcené qui franchissent elles les frontières nationales Il faut avancer vers et dans la constitution de l'Europe pour que les peuples regagnent des latitudes d'action au niveau supranational sans pour autant sacrifier la démocratie La crise de l'Europe des gouvernements doit conduire la constitution d'une Europe des peuples Telle est la conviction de Jürgen Habermas dans ce petit traité de démocratie vivante et constructif

Constitutionalism and the Enlargement of Europe Wojciech Sadurski, 2012-07-26 After the fall of Communism in Central and Eastern Europe CEE the newly democratized countries of this region joined two main pan European political and legal structures the Council of Europe and the European Union This book shows how the Eastward enlargement of these two structures fostered the

constitutionalization both of the Council of Europe and of the EU Prompted by the enlargement of the Council of Europe and the admission of a number of countries which brought unique and often more substantial problems onto the Court's agenda the main judicial body of the Council of Europe the European Court of Human Rights became a quasi constitutional court of Europe This book demonstrates that this was primarily as a result of the widening of its agenda and the resulting need to make activist decisions about the compatibility of national laws with the European Convention In terms of the EU the book shows that the enlargement first prospective and then actual has been an important agenda setter for the constitutionalization of the EU in particular for openly placing the issue of fundamental rights on the EU agenda as a legitimate and indispensable matter of concern for the EU But the constitutional synergies were a two way street the accession to both pan European structures has also affected the development of democratic constitutionalism in CEE states It has raised difficult issues regarding the relationships between national sovereignty democracy and human rights that CEE policy makers have grappled with these issues and responses by CEE member states have had implications for the old EU member states as well These dynamics are explored through various case studies providing a new perspective on the development of legal norms and institutions within European supranational bodies
