L'Europe Méditerranéenne Marta Petricioli, 2008

L'Europe de la Méditerranée comparée aux autres régions européennes dispose d'une histoire et d'une géographie particulières. Et pourtant elle entretient avec ces régions de nombreux rapports qu'il conviendra d'analyser afin d'enrichir notre compréhension de l'Europe dans son ensemble. Une longue tradition de rapports économiques et culturels rapproche tous les pays donnant sur la mer berceau des principales civilisations du monde. bassins où se changent hommes, idées, matières premières et technologies. L'Union européenne est appelée à développer une grande politique méditerranéenne aussi bien par l'adhésion de nouveaux pays que par une politique de bon voisinage ou d'associations privilégiées. L'instrument principal devrait être une politique culturelle servant de pont entre l'Est et l'Ouest, le Nord et le Sud, politique commune afin de répandre les valeurs contenues dans le projet de constitution européenne qui reconnaît dans le concept de diversité son bien le plus précieux. Les pays de l'Europe méditerranéenne avec leurs expériences et leurs savoirs peuvent fournir cette politique une contribution précieuse. Ce volume fruit de la coopération internationale de vingt chercheurs apporte des éclairages sur l'Europe méditerranéenne non seulement dans des dimensions historiques, économiques, démographiques et politologiques mais également dans le domaine des relations internationales et de la politique culturelle.

The geography and the history of Mediterranean Europe are very different from those of the other European regions but their role in the relationships with the other shores of the Mediterranean can be of great assistance to Europe as a whole. All the countries bordering the sea that witnessed the birth of some of the major civilisations of the world share a long tradition of economic and cultural relations. In the past numerous diasporas knit the harbour cities together transmitting the ideas of the Enlightenment today an uninterrupted flow of raw materials traverses the Mediterranean together with people, ideas and technology. The European Union is called upon to develop a major Mediterranean policy both through the accession of new countries and by means of a policy of neighbourhood or of privileged associations. The principal tool should be a cultural policy that serves as a bridge between east and west, north and south. A common policy to spread the values contained in the project of the European constitution. In its motto 'United in diversity' the Union recognises diversity as its most valuable asset. The countries of Mediterranean Europe with their experience and their knowledge can make a precious contribution to this policy. This book, the fruit of international co-operation among 20 researchers, offers a contribution to the study of Mediterranean Europe not only in the historic, economic, demographic and political ambit but also in the sphere of international relations and cultural policy.

Cultures nationales et identité communautaire Marloes Beers, Jenny Raflik, 2010

La question de l'identité européenne a souvent été soulevée par les historiens sous l'angle de la civilisation et de l'héritage historique et culturel.

commun Mais l'identité européenne n'a que rarement été abordée à travers une grille de lecture liée à l'émergence d'un espace public européen et d'une expérience de vivre ensemble Cet ouvrage se propose donc de croiser les compétences multiples de jeunes chercheurs européens afin d'identifier les vecteurs porteurs d'une identité européenne et de mesurer leur rôle ou leurs insuffisances Ce faisant il propose des pistes de développement pour cette identité européenne encore en gestation afin d'en terminer les enjeux pour l'Europe la fois objectif et handicap dans l'histoire des communautés européennes la question identitaire semble être un enjeu majeur pour aujourd'hui comme pour demain The issue of a common European identity has been the subject of academic research from diverse perspectives This book approaches the theme of European identity through the interpretive lens of both European public space and the experience of living together Young scholars in the field of European studies identify instruments for the development of a European identity and analyse their characteristics and shortcomings These proceedings offer a spectrum of perspectives on the development of a European identity
