hard for you to get your child's attention to draw and color. Have you tried everything? Have you bought even expensive sets and still nothing? It is not about the type of colors and pencils he will use. It is about the simplicity of the lesson. It needs to be fun and at the same time easy to follow. That is why the drawings in this book are accepted and loved by many children in the world. Actually, adults love them too. Every single step is shown for each drawing, even for the smallest one. But also many drawings use just simple shapes that when put together make wonderful art. Art skills are important for every child. It helps in shaping his imagination, helps with motor skills and coordination. It is fun too.

How to Draw Farm Animals Barbara Soloff Levy, 2009-02-19. This easy to follow guide makes it a snap for aspiring artists of all ages to draw everyone's favorite barnyard buddies. If you've never been able to create a likeness of an animal, you'll welcome the book's effective step by step diagrams. Using circles, ovals, and other geometric shapes, the diagrams build appealing images of a turkey, duck, horse, cow, and 26 other farm animals. Not only will you learn to make realistic drawings, you'll be on the way to mastering the basics of shape development and the fundamentals of form and dimension as well.

Are the mentally retarded capable of creative expression in the visual arts? This book, which answers yes to this question, was conceived as a method of disseminating information on this relatively little known subject. It is a unique book which shows rather than tells what has and can be done by those developmentally disabled persons usually categorized as the mentally retarded. Beyond limitations, the creative art of the mentally retarded contains a collection of original art work done by the mentally retarded, ranging from the mildly retarded to the severely and profoundly retarded, the autistic, and those with Down's syndrome. The art work itself, with a media range from wood and clay to crayons and felt tipped pens, was gathered from various state training schools, special classes in public schools, and community programs in ten states. Each of the 121 black and white and two color illustrations is accompanied by descriptive information, with the specific disability of the artist also noted. The author has done this from a positive point of view to show that labels are not necessarily limiting. Of special interest to the reader will be the contributions from teachers who have worked closely with the handicapped. They write informally about their individual approaches, experiences, and philosophy, a valuable addition to the essentially picture book format of this text. The dynamic results, spontaneity, and excitement of the creative works of the mentally retarded, as shown in this book, will encourage administrators, teachers, and parents to involve the retarded in creative activities. As an art collection, the book will inspire those in charge of developing programs to explore new ways of reaching the handicapped, especially through the visual arts. This book, by no means a complete representation, illustrates that there is a vast quantity of creative art just waiting to be discovered.
