Introduction

It is unfair to measure success at Year 11 through a series of exams in each subject. Exam success measures only the knowledge and skills demonstrated in subject areas while ignoring pupil achievement in sporting and cultural pursuits or social development. The exam system places unnecessary stress on students without providing an adequate measure of learning or work undertaken throughout the year. More than anything, it measures a student's skill in sitting exams.

Body

The stress of trying to prove their worth in just three hours can put quite a strain on some students. Everyone has heard of at least one student who, despite their hard work and intellect, has become overcome by the stressful nature of the exam and failed to write anything. Teenagers are undergoing major mental development at this stage on their lives and any stress they feel can cause long lasting or even permanent damage. Often it is the students who are most able who try the hardest and put the most strain on themselves who suffer the most. This stress can manifest itself in other areas of students' lives and cause problems outside of school. However, exam stress does not affect all students equally. Some students can handle stress better despite not being as able. This means that exams do not have the intended effect of testing student knowledge but rather student's ability to handle stress.

Conclusion

So, as you can see measuring success at Year 11 by using exams is unfair. It ignores other student achievement outside of the classroom, places unnecessary strain on already fragile students and really only determines who is good at sitting exams. Alternatives such as coursework which test student knowledge throughout the year and methods to measure student achievement in non-academic areas must be introduced to provide a fair representation of student ability. Student success and failure at Year 11 has a major affect on the options available to students beyond school and the current system disadvantages those who might otherwise go on to make major contributions towards society.

These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
