Writing a report

The purpose of a report is often to give information and suggestions to the reader. Reports are a mixture of fact and opinion and the language you use will depend on the audience the report is for. A report may include headings.

Content

Content covers:

- the **relevance** (i.e. whether the piece fulfils the task and the awareness of purpose/audience/register)
- **development of ideas** (i.e. the detail/explanation provided).

Language

Language covers:

- **range** (i.e. complexity of vocabulary and sentence structure)
- **accuracy** (i.e. grammar, spelling, punctuation and text organisation).

Tips for writing a report

Language

Think about the audience that the report is for. The tone of the report should be formal.

Use linking words which suit a formal type of writing, such as 'Firstly', 'Furthermore' or 'In conclusion.'

Use reported speech rather than direct speech.

Use correct spelling, punctuation and grammar.

Organisation

A report should be well-organised and clear. Each paragraph should cover a different aspect of the report.

A report often follows a three or four-part structure:

- **Introduction** – why are you writing the report
- **Summary**
- **Findings**
- **Conclusion**– this should include recommendations, solutions or suggestions.

English Second Language Guide 2013

Elaine L. Wilmore

English Second Language Guide 2013:

Handbook of Second Language Assessment Dina Tsagari, Jayanti Banerjee, 2016-03-07 Second language assessment is ubiquitous. It has found its way from education into questions about access to professions and migration. This volume focuses on the main debates and research advances in second language assessment in the last fifty years or so, showing the influence of linguistics, politics, philosophy, psychology, sociology, and psychometrics. There are four parts which, when taken together, address the principles and practices of second language assessment while considering its impact on society. Read separately, each part addresses a different aspect of the field. Part I deals with the conceptual foundations of second language assessment, with chapters on the purposes of assessment and standards and frameworks, as well as matters of scoring, quality assurance, and test validation. Part II addresses the theory and practice of assessing different second language skills, including aspects like intercultural competence and fluency. Part III examines the challenges and opportunities of second language assessment in a range of contexts. In addition to chapters on second language assessment on a national scale, there are chapters on learning-oriented assessment, as well as the uses of second language assessment in the workplace and for migration. Part IV examines a selection of important issues in the field that deserve attention. These include the alignment of language examinations to external frameworks, the increasing use of technology to both deliver and score second language tests, the responsibilities associated with assessing test takers with special needs, the concept of voice in second language assessment, and assessment literacy for teachers and other test and score users.
