mobility within the politics of movement opening new perspectives in the history of science Human societies often come to
know the natural world by examining animals even as animals frequently both willful and animate can elude human grasps
and challenge human aims Animals and their movements have underpinned many methodological moral and epistemic
dilemmas that generatively trouble the field Featuring a range of geographies species languages and cultures the
contributions in this volume broaden the view of the historical roles animals play in knowledge production processes
Organized according to three scales of animal movement individuals groups systems the twelve richly illustrated inquiries
are situated in different time periods from the sixteenth century Ottoman Empire to the recent globalized past and introduce
varied forms capacities and politics of movement associated with animals The analytic attention to animal mobility deepens
comprehension of animal agency and human animal interactions in unexpected spaces including airports entertainment
venues living rooms dirt roads and waterways Taken together the case studies in this volume reconsider how where and by
