

Worm Farming

TOP TRAY

Place some shredded newspaper on the bottom as 'bedding'. Add food scraps and some worms.

MIDDLE TRAY

This tray will be full of old food scraps that are almost all composted. When the worms have eaten everything from this tray, they will move up to the top tray to find more food.

BOTTOM TRAY

This tray should be completely composted and ready to use in the garden. Grab a handful of this nutritious compost and place around hungry plants such as tomatoes and strawberries. Once you use all the compost, move this empty tray to the top to repeat the cycle again!

"WORM TEA"

The dark liquid collected at the bottom is a very nutritional natural fertiliser. Use this to feed fruits and vegetables in the garden.

- Fill watering can with water
- Add worm tea
- Water around plant's roots to boost growth
