before Corona unleashes a Big Bang [The Impossible Has Happened](#) Lance Parkin,2016-07-19 A biographer goes in search of Gene Roddenberry creator of the world's most successful science fiction franchise This book reveals how an undistinguished writer of cop shows set out to produce Hornblower in space and ended up with Star Trek an optimistic almost utopian view of humanity's future that has been watched and loved by hundreds of millions of people around the world Along the way Lance Parkin examines some of the great myths and turning points in the franchise's history and Roddenberry's particular contribution to them He looks at the view that the early Star Trek advanced a liberal egalitarian and multi racial agenda charts the various attempts to resuscitate the show during its wilderness years in the 1970s explores Roddenberry's initial early involvement in the movies and spin off Star Trek The Next Generation as well as his later estrangement from both and sheds light on the colorful personal life self mythologizing and strange beliefs of a man who nonetheless gifted popular culture one of its most enduring narratives *Star Trek: Signature Edition: Worlds in Collision* Judith Reeves-Stevens,2003-11-04 The Star Trek Signature Edition series continues with this thrilling adventure featuring Commander Spock Captain Kirk and the U S S Enterprise Of all the experiences shared by Captain Kirk and the crew of the Starship Enterprise during their first five year mission two were among the most perilous a journey to the nonphysical realm of Transition where the massive computer known as Memory Prime was situated and the nightmarish mission to Talin IV a world poised on the brink of destruction that Kirk was forbidden to save In the twenty third century a hundred years before a sentient artificial life form would be allowed to earn a Starfleet commission the Federation considers the use of self aware artificial intelligences to be little more than slavery except for the immense computer system of Memory Prime the key hub in the Federation's vast network of interstellar library planets There the A I s known as Pathfinders inhabit Transition a virtual world so different from our universe that the A I s themselves debate whether or not the physical universe is real But when an ancient enemy reaches out from the shadows of Vulcan's darkest history and threatens to destroy the Federation Spock must risk his career and his life to enter the Pathfinders realm Technologically and politically Talin IV is little different from late twentieth century Earth But as a series of mysterious events pushes that world closer to self annihilation the Prime Directive prevents Captain Kirk and his crew from doing anything to prevent it When the worst appears to happen and Kirk takes desperate action to give the Talin a chance to step back from the nuclear abyss Talin IV is consumed by radioactive fire Now with a world destroyed and the Enterprise dead in space the careers of Kirk and his crew are over Disgraced and despised Kirk has only one chance to redeem himself and his crew Somehow he must make his way back to Talin IV and discover what really happened even if it means proving that a world died because he broke Starfleet's most sacred law
