

## PROJECT

- 1 As a class, find an NGO specialising in any social cause that you think is important in your country.
- 2 Find out as much information on this NGO and its goals from the internet.
- 3 Split into two groups.

One group should organise a visit to the NGO, for an interview with a manager. The interview should include structured open and closed questions, aiming to understand:

- the scope of the business activity
- how it is organised
- how it differs from for-profit businesses

- how it finds resources to cover its needs
- what kind of problems it finds when trying to reach its goals.

The interview findings should be presented to the other group, which will need to organise a practical way to support the NGO. Ideas include: offering voluntary work, organising giving lotteries or other events, etc.

- 4 The two groups will meet to create a visual presentation of the project, e.g. a video, to be shared with their peers at school to increase awareness of the social goals of the non-profit organisation.

## EXAM-STYLE QUESTIONS

### Alejandro and Santiago become partners

Alejandro and Santiago are best friends and graduates from university. They have decided to set up a partnership, to start a business organising experiential events. They came up with the idea when they saw a video on YouTube, in which IKEA offered a big sleepover event to 100 people in one of their stores. They were also inspired by the fact that some famous partnerships were so successful that they ended up becoming huge public limited companies, such as the partnership between Larry Page and Sergey Brin, the two computer science graduate students who founded Google. However, they also read statistics which suggested that partnerships have many disadvantages and that only 30% survive in the long run.

In 2018, the two friends started the partnership, under the name XEvent. As a start-up, XEvent faced many problems. Competition in the market was more intense than the partners expected, and the business had cash flow problems, but banks were not happy to offer a loan. The business plan initially set up by the partners proved inaccurate. In 2020, Alejandro managed to convince Maria, another friend from university, to invest in the business. However, Maria demanded that the business be incorporated by becoming a private limited company. Initially, the partners were sceptical about it because the incorporation process is quite costly. Yet, they knew that the decision would solve many of their problems. Eventually, the partners became shareholders with limited liability in XEvent.

The business started growing and soon became very profitable. Maria was interested in transforming XEvent from a traditional for-profit business to a for-profit social enterprise by investing some of their profit in organising events for children with special needs as part of their social integration program. Santiago and Alejandro were enthusiastic about the idea. They also suggested that XEvent would help non-profit businesses by supporting them with their goals. Alejandro contacted an NGO working on animal rights and volunteered to organise an event to help them spread awareness on animal welfare issues.

- 1 Define the term 'partnership'. [2]
- 2 Identify the economic sector in which XEvent operates. [2]
- 3 Suggest two reasons why Santiago and Alejandro decided to set up their business as a partnership. [4]
- 4 Suggest two problems the two owners faced from setting up XEvent as a partnership. [4]
