## **Ib Economics Sl Paper 23:**

**Introduction to Intercultural Economics** Rongxing Guo,2012-04-23 This book presents a methodological framework for the analysis of intercultural issues frequently misinterpreted by existing theories It uses a challenge and response theory of cultural development to examine the relationship between different natural disasters and threats and the developments of ancient civilizations The spatial interaction of ancient civilizations is assessed and four non linear patterns of intercultural dynamics are presented Our empirical analyses of the four major ancient civilizations the Mesopotamian the Egyptian the Indus and the Chinese focus on intercultural influences as well as how they have shaped the spatial dynamics of the world as a whole This book also examines various aspects of intercultural economic influences such as those of culture on international trade Evidence from a broad panel of nations supports the presumption that high income trade partners will be less sensitive to the measures of cultural dissimilarity than low income trade partners between which cultural dissimilarity leads to barriers to international trade The treatment of linguistic and religious factors as continuous variables in this book has improved past studies in which language was treated as one or more dummy variables and religion was ignored

**Intercultural Economic Analysis** Rongxing Guo,2009-08-29 Since the end of the Cold War the study of intercultural relations has become one of the most popular topics in the field of global politics and economics This book presents a methodological framework for the analysis of intercultural issues frequently misinterpreted by existing theories The book uses a challenge and response theory of cultural development to examine the relationship between different natural disasters and threats and the developments of ancient civilizations The spatial interaction of ancient civilizations is assessed and some theoretical patterns of intercultural influences are presented with a focus on the Chinese Egyptian Indus and Mesopotamian civilizations Using the development of China as a case study and on the basis of a simplified spatial model the optimal spatial structure and size of culture areas are mathematically solved and the political economy implications to the interactions between cultures differing in size are illustrated The book also examines various aspects of intercultural economic influences such as those of culture on international trade The empirical results suggest that high income trade partners are less sensitive than low income trade partners to the measures of cultural dissimilarity which block international trade The existing literature relating to the determinants of economic growth treats explanatory variables such as income inequality and cultural diversity separately This book investigates whether there are any conditions under which income inequality and cultural diversity could encourage economic growth and provides evidence from a broad panel of nations which reveals that economic growth is quite independent from the variables of inequality and cultural linguistic and religious diversity Finally this book provides suggestions for how cultural influences can benefit developing economies both large and small

**Export Diversification and Economic Growth** Juan Felipe Mejía,2011-07-31 The main research problem addressed in the book is the one regarding the role that export diversification could play for enhancing economic growth in Colombia both in terms of

new products and new geographic markets The underlying motivation for centering the analysis on the European Union s market are manifold reaching from the evident concentration of exports both in terms of composition and markets that Colombia still shows to the small amount of empirical studies analyzing the current status and potentialities of the commercial relations between Colombia and the European Union

**Labor's Share of Income** Minghai Zhou,2015-11-30 This book analyzes the decrease in labor share in China which is a ratio of national income distribution to capital at three different levels macro meso and micro and from three different perspectives growth transition and opening up The worsening income distribution has been a key issue for both Chinese and global economies in recent decades The book shows that the decrease in labor share is closely related to economic growth increasing extent of globalization and firms with heterogeneous characteristics Moreover the book explains income inequality in detail focusing on China s increasingly important and emerging economy

**Festschrift in Honor of Peter Schmidt** Robin C. Sickles,William C. Horrace,2014-03-15 From the Introduction This volume is dedicated to the remarkable career of Professor Peter Schmidt and the role he has played in mentoring us his PhD students Peter s accomplishments are legendary among his students and the profession Each of the papers in this Festschrift is a research work executed by a former PhD student of Peter s from his days at the University of North Carolina at Chapel Hill to his time at Michigan State University Most of the papers were presented at The Conference in Honor of Peter Schmidt June 30 July 2 2011 The conference was largely attended by his former students and one current student who traveled from as far as Europe and Asia to honor Peter This was a conference to celebrate Peter s contribution to our contributions By our contributions we mean the research papers that make up this Festschrift and the countless other publications by his students represented and not represented in this volume Peter s students may have their families to thank for much that is positive in their lives However if we think about it our professional lives would not be the same without the lessons and the approaches to decision making that we learned from Peter We spent our days together at Peter s conference and the months since reminded of these aspects of our personalities and life goals that were enhanced fostered and nurtured by the very singular experiences we have had as Peter s students We recognized in 2011 that it was unlikely we would all be together again to celebrate such a wonderful moment in ours and Peter s lives and pledged then to take full advantage of it We did then and we are now in the form of this volume
