Investment Banking Valuation

Joshua Pearl, Joshua Rosenbaum

Investment Banking Valuation :

Investment Banking Joshua Pearl, Joshua Rosenbaum, 2013-05-28 Investment Banking UNIVERSITY EDITION is a highly accessible and authoritative book written by investment bankers that explains how to perform the valuation work at the core of the financial world. This body of work builds on Rosenbaum and Pearl's combined 30 years of experience on a multitude of transactions as well as input received from numerous investment bankers, investment professionals at private equity firms and hedge funds, attorneys, corporate executives, peer authors, and university professors. This book fills a noticeable gap in contemporary finance literature which tends to focus on theory rather than practical application. It focuses on the primary valuation methodologies currently used on Wall Street: comparable companies, precedent transactions, DCF, and LBO analysis, as well as M/A analysis. The ability to perform these methodologies is especially critical for those students aspiring to gain full-time positions at investment banks, private equity firms, or hedge funds. This is the book Rosenbaum and Pearl wish had existed when we were trying to break into Wall Street. Written to reflect today's dynamic market conditions, Investment Banking UNIVERSITY EDITION skillfully introduces students to the primary valuation methodologies currently used on Wall Street. Uses a step-by-step approach for each methodology and builds a chronological knowledge base. Defines key terms, financial concepts, and processes throughout. Provides a comprehensive overview of the fundamentals of LBOs and an organized M/A sale process. Presents new coverage of M/A buy-side analytical tools which includes both qualitative aspects such as buyer motivations and strategies along with technical financial and valuation assessment tools. Includes a comprehensive merger consequences analysis including accretion, dilution, and balance sheet effects. Contains challenging end-of-chapter questions to reinforce concepts covered. A perfect guide for those seeking to learn the fundamentals of valuation, M/A, and corporate finance used in investment banking and professional investing. This UNIVERSITY EDITION, which includes an instructor's companion site, is an essential asset. It provides students with an invaluable education as well as a much-needed edge for gaining entry to the ultra-competitive world of professional finance.

The two Joshes present corporate finance in a broad yet detailed framework for understanding valuation, balance sheets, and business combinations. As such, their book is an essential resource for understanding complex businesses and capital structures, whether you are on the buy side or sell side. Mitchell R. Julis, Co-Chairman and Co-CEO, Canyon Partners LLC.
