*Multilayered Migration Governance* Rahel Kunz, Sandra Lavenex, Marion Panizzon, 2011-03-03

Multilayered Migration Governance explores the emerging concept of migration partnerships in political management and governance of international migration flows The partnership approach to migration seeks to balance responsibility and benefits of migration more evenly between source transit and destination countries Case studies from the US Europe and Africa analyse the various initiatives and programmes applied in national regional and transcontinental migration policy today It shows that a multilayered system of migration governance has emerged which embeds primarily bilateral and mainly control focused migration partnerships in a broader framework of trans regional and international cooperation providing key links to policy areas in development trade finance and security Utilising a comparative approach to assess the impact of partnerships on global migration policies the book will be of interests to scholars and students in migration and development studies and international relations more broadly
