ОСНОВЫ экранизации. Преврати свой роман в сценарий Пол Томлинсон, 2025-09-04 PDF A4 *The 15-Minute Movie Method* Wallace Evan Wang, 2013-11 If you've always wanted to write a screenplay or a novel you may be wondering What makes a great story It's not just interesting characters memorable dialogue or explosive action scenes What makes a great screenplay or novel is a great story Every great story from classic novels and stage plays to today's modern films follow the same basic proven story structure that alternates between contrasting problems and solutions to maintain and maximize suspense In the traditional three Act structure a story looks like this Act I Exposition Act II Rising Action Act III Climax Act I and Act III are roughly the same length corresponding to a 30 minute length in a 120 minute screenplay but Act II is typically twice as long as either Act I or Act III The result is that the traditional three Act structure sets you up for failure by forcing you to write a huge chunk of your story without any guidelines whatsoever In contrast a four Act structure makes each Act manageable while also providing the necessary contrast to create a compelling story Stories are interesting and suspenseful because they alternate between problems facing the hero followed by solutions that the hero achieves In the four Act structure a story looks like this Act I Exposition Act IIa Positive Rising Action Act IIb Negative Rising Action Act III Climax Another way to look at this four part story structure is as follows Act I Problem facing the hero Act IIa Hero solves the problem and appears to achieve success Act IIb New problems occur Act III Hero finally solves the problem Let's look at how this four part story structure works in Star Wars Act I Problem Luke is stuck in a dead end life on his uncle's farm Act IIa Solution Luke leaves with Obi wan to deliver the stolen Death Star plans Act IIb Problem Luke gets trapped on the Death

Star Act III Solution Luke blows up the Death Star The four Act structure clearly lets you tell a story with alternating problems and solutions which is how you generate suspense to keep an audience glued to the edge of their seats Notice that with Act IIa the action continues to rise but in a positive direction Yet in Act IIb the action also continues to rise but in a negative direction This subtle difference is what the typical three Act structure fails to identify which is why the three Act structure so easily misleads writers to create less than compelling stories Once you understand how this four part story structure works you can use it as a guide to help shape your story into a well crafted screenplay The 15 Minute Movie Method isn t a formula for writing a story but a set of guidelines that you can test for yourself with your own favorite movies By following The 15 Minute Movie Method guidelines you can learn how to structure your screenplay to tell a compelling intriguing story with any idea You ll learn the four basic parts of any story how to divide your screenplay into eight 15 minute segments that each tell a mini story what type of information each story segment needs to show the audience how the beginning and end of your story is related how to create the toughest villain for your particular hero who the most important character of your story really is Hint it s not your hero and much more with specific exercises that anyone can follow whether you re a novice trying to write a first screenplay or a veteran screenwriter who needs to fix a problem with an existing screenplay By taking you step by step through the process of turning a good idea into a well structured story The 15 Minute Movie Method can show you how to write a screenplay with less hassle frustration and confusion so you can spend more time actually writing and enjoying the process of creating the story that you want to share with the world

The Nutshell Technique Jill Chamberlain,2016-03-01 Veteran script consultant Jill Chamberlain discovered in her work that an astounding 99 percent of first time screenwriters don t know how to tell a story These writers may know how to format a script write snappy dialogue and set a scene They may have

interesting characters and perhaps some clever plot devices But invariably while they may have the kernel of a good idea for a screenplay they fail to tell a story What the 99 percent do instead is present a situation In order to explain the difference Chamberlain created the Nutshell Technique a method whereby writers identify eight dynamic interconnected elements that are required to successfully tell a story Now for the first time Chamberlain presents her unique method in book form with *The Nutshell Technique Crack the Secret of Successful Screenwriting* Using easy to follow diagrams nutshells she thoroughly explains how the Nutshell Technique can make or break a film script Chamberlain takes readers step by step through thirty classic and contemporary movies showing how such dissimilar screenplays as *Casablanca Chinatown Pulp Fiction The Usual Suspects Little Miss Sunshine Juno Silver Linings Playbook* and *Argo* all have the same system working behind the scenes and she teaches readers exactly how to apply these principles to their own screenwriting Learn the Nutshell Technique and you ll discover how to turn a mere situation into a truly compelling screenplay story [How to Write a Screenplay in 3 Days](#) Jackie Lynn Young,2008-12 A screenwriting book that takes a look at the creative process behind screenwriting and details a proven method for writing a screenplay in a 3 day marathon **The Rules of Screenwriting and Why You Should Break Them** Bill Mesce, Jr.,2017-06-06 A couple of generations ago the movie industry ran on gut instinct film schools audience research departments and seminars on screenwriting were not yet de rigueur Today the standard is the analytical approach intended to demystify filmmaking and guarantee success or at least minimize failure The trouble with this method is that nobody knows how to do it they just think they do and films are made based on models of predictability rather than the merits of the script This insider s look at the craft and business of screenwriting explodes some of the popular myths demonstrating how little relevance the rules have to actual filmmaking With long experience in film and television the author provides insightful how not to analyses with commentary by such veterans as Josh Sapan CEO of AMC Networks bestselling author Adriana Trigiani and Oscar nominated screenwriter Nicholas Pileggi *Goodfellas Master Screenplay Sequences* Alex Bloom,2018 Want To Know What s Really Going On Under Three Act Screenplay Structure This screenwriting book moves past generic screenplay analysis of structure i e three big boring acts to discover the seven sequences underpinning them *Master Screenplay Sequences* is one of only two screenwriting books available dedicated to sequences and will revolutionize your understanding of structure by showing you how to break scripts down into manageable ten to fifteen minute chunks or mini movies Fully understand how to make conflict easier to create and escalate by utilizing sequences Structure your entire script much more easily by breaking it down into 7 or 8 mini movies rather than big long acts Write your screenplays quicker and easier than ever before Learn how to create page turner screenplays just like the pros by using the highs and lows natural to sequence structure This Book Includes 1 A complete analysis of sequences missing from most screenwriting books and courses enabling you to step up to the level of pro regarding structure We fully explain how sequences work by breaking them down to show their inner workings how they should be viewed as mini movies with their

jockstrap and get ready to do battle in the carnival funhouse otherwise known as showbiz The Process Clive Frayne, 2019-11-27 The main difference between an early career screenwriter and a great screenwriter is their process Screenwriters with an effective and professional process tend to write great scripts This book teaches a method called process driven screenwriting The process is a series of planning steps we take before writing our script This process works for any kind of movie It works for Hollywood Blockbusters or experimental art house films As long as our intention is to create drama the process will help us write better scripts This book doesn't offer a formula or plot template Instead it helps screenwriters find a writing technique that works for them At the heart of this book is a simple idea dogma is the enemy of creativity This book contains a set of practical tools Tools designed to help writers create drama and to craft great cinematic stories This is also a book that explores the ideas behind drama story and what it means to write cinema Although the tools in this book are simple the conversation about how we write movie scripts isn't I have not separated the conversation about writing from the discussion about the tools That's because the two things are connected We need tools like this because writing cinematic drama is complicated It's not possible to separate the process from the challenges of screenwriting Process driven screenwriting is very simple Anyone can learn the basic steps in a short period of time However as with any tools it takes time and practice to master their use These tools can be used to create simple stories or to craft complex narratives So what are these tools What are the steps raw idea our initial inspiration or ideatheme decide what facet of human experience we're exploring compass logline decide who the film is about when and where it is set chase our fascination to create the world of story creating a fictional world character development populate the world with characters create a plot decide what happens and the order in which the audience finds things out write the script write cinematic drama in a form that is acceptable to the production team In reality everyone is a process driven screenwriter whether they know it or not Every writer has a process even if that process is to stare at a blank page until they have an idea Every writer's process is unique to them We do what works best for us Writers with great processes write great screenplays In this book we will look at ways any writer can improve their process without giving up the things that make them unique **Screenwriting Into Film** André Seewood, 2006 SCREENWRITING INTO FILM is a dynamic new book that gives the reader five necessary steps to follow in preparing to write a screenplay that can increase their chances of success This is a book of ideas that uses many classic controversial and contemporary films to illustrate those ideas to the reader In SCREENWRITING INTO FILM you will find illuminating insight on how to build a character how to establish solid motives for villainous or heroic characters how to build conflict how to find and demonstrate themes and most importantly how to arrive at a great ending A rewarding discussion of all of the elements that are indispensable in developing a good story and writing a great screenplay are within the pages of this book There's even a chapter on Book Adaptations that specifically tackles the three important aspects every screenwriter filmmaker must know to prepare a successful adaptation of a novel or short story ANYONE WHO WANTS TO
