Betsy McCoach,2021-09-03 Seeking a more comprehensive vision for gifted education this book offers a modern vision of programs and services for gifted and talented students Beyond Gifted Education Designing and Implementing Advanced Academic Programs provides the first comprehensive look at designing and implementing advanced academic student programs Written by four leading experts in the field Beyond Gifted Education reviews the current range of traditional gifted education practices and policies Then the book offers the concerned gifted program coordinator or school administrator a more expansive approach to educating gifted learners The authors lead readers through the process of identifying needs responding with programming and then finding students who are well suited for and would benefit from advanced academic programming Detailed examples walk the reader through real world scenarios and programs common to the gifted coordinator on topics such as cluster grouping acceleration and increasing diversity Throughout the book connections are made to Common Core State Standards Response to Intervention and a wealth of outside research in order to support ideas

*Elements of Statistics* Raghubar D. Sharma,2019-02-01 This book represents a crucial resource for students taking a required statistics course who are intimidated by statistical symbols formulae and daunting equations It will serve to prepare the reader to achieve the level of statistical literacy required not only to understand basic statistics but also to embark on their advanced level statistics courses without anxiety The application of statistics in social research has recently become imperative However a gap usually exists between the time when students take their first statistics course and when they engage in their first serious research project meaning that they often don t remember basic statistics well enough to apply it effectively in their research In this sense this book will also serve as an excellent desk reference refresher or core concept text for burgeoning researchers interning or working as a research assistant or research associate Furthermore the text is written in a self help hands on learning style so the reader can easily attain the skills needed to achieve a basic understanding of statistics found in articles and presentations
