

...yourself in Survival mode, or you might want to build a beautiful village in Creative mode. Whatever your requirements, houses are one of the most important constructions to get right.

RECONSTRUCTION MATERIALS

...st, create a simple 1-block-high outline using cobblestone blocks. Add a slight outcrop at the front for an entrance and a slight outcrop at the back for a rear porch.

Build up the ground-floor walls bearing in mind how high you'd like your ceiling to be. We'd recommend at least 1 or 2 blocks of space above your head so it doesn't feel too cramped. Fill in your ground floor using wood planks.

Build up the first-floor walls in wood planks to complement the cobblestone. It's often easier to fill in the entire wall, then knock any excess blocks out to add windows. Add in your first floor using wood planks followed by a handy wooden staircase.

Use glass blocks to create windows and wood blocks to define the edges of your house. Add 2 sets of wooden double doors to the entrance and torches to light it all up at night. Finally, lay out your rooms and decorate your house.

DOOR RECIPE

You can craft a single wooden door from 6 wood planks.

choose from all with their own unique styles and complexities Take a moment to search through the different options we provide completed pictures for you to choose from You jump to the picture of the house you like the best and want to build Once you pick your house we will tell you what materials you need and how many blocks of each material you need to collect From there start collecting materials or start building in creative Or you can start building with what you have and collect materials along the way From there the construction of the house is crazy simple We start with layer 1 Each layer of the house is shown to you with a bird s eye view so you can clearly see which block goes where Each photo is complemented with a descriptive text version of what you need to do in that layer Then step by step layer by layer we will build the house to the top These blueprints were designed to be as clear and easy to follow as possible Because building a well designed house is hard work Finding all of the materials along with knowing what to use at which time can get confusing That s why you should start with a plan design and goal in mind This is especially relevant if you are playing multiplayer Don t be that player that builds the ugly house on the block Build something amazing that other players are jealous of and compliment you for The days of ugly houses are OVER It s time to get started and get excited about your new Minecraft home Just listen to what our other Minecraft readers have to say This ebook is amazing The images display what you need to construct so clearly Building the house was so simple and it looks better than everyone else s on our server Tim G Drake PLEASE MAKE MORE BLUEPRINTS I always built awful houses and could never be happy with them or figure out how to improve them Now I m really happy with the village I built John S Keep it up and keep them coming Drake Craft Another great series of houses to build I m super excited Whitney M Happy Crafting
