This Is a Prototype Scott Witthoft, Stanford d.school, 2022-10-04 A practical guide to prototyping as a way to revolutionize your work and creative life from Stanford University's world renowned Hasso Plattner Institute of Design aka the d school Prototyping is a way to test an idea to see if it can be successful before investing too much time and too many resources But it's not only designers who prototype as they work A skateboarder tries a new trick that's a prototype experience A chef experiments with a new dish and new ingredients that's a prototype experience too Once a prototype is made the creator gains knowledge about what worked and what didn't what should be used again and what should be trimmed from the experience This is a book about becoming better at prototyping by building things and experiences that will help you learn from your attempts no matter what you're aiming to achieve Readers will learn how to not only create prototypes but also how to reflect on the success and failure of those attempts Scott Witthoft who teaches courses in design and prototyping to students around the world introduces a comprehensive number of tools and materials for prototyping including digital platforms and physical objects And he breaks down real life examples of prototype experiments with accompanying photographs for the reader to observe large and small scale prototyping in action With Witthoft as your guide you'll put the principles of design into practice and bring your vision to life one prototype at a time *Transitioning to Concept-Based Curriculum and Instruction* H. Lynn Erickson, Lois A. Lanning, 2013-12-10 A cutting edge model for 21st century curriculum and instruction Looking for that one transformative moment when a student's eyes light up signaling he or she has finally grasped that big idea behind critical academic content Concept based curriculum and instruction is a way to make those moments many H Lynn Erickson and Lois Lanning offer new insight on How to design and implement concept based curriculum and instruction across all subjects and grade levels Why content and process are two equally important aspects of any effective concept based curriculum How to ensure students develop the all important skill of synergistic thinking
