Our Navy, 1930 *Minecraft: Minecraft Building Guide: Ultimate Blueprint Walkthrough Handbook: Creative Guide to Building Houses, Structures, and Constructions with Building Ideas and Tips* Drake Craft, 2016-09-20 Never Build an Ugly House Again by Using Blueprints Want easy to follow image based blueprints to use when building your Minecraft houses and structures Remember the first day in Minecraft You are rushing to find materials find coal and build a shelter before you get attacked by creepers and skellies Typically you build a house so quickly that it ends up being a hole in the dirt or a 5x5 cube made of dirt Either way it ends up looking TERRIBLE You continue to slowly gather materials and block by block build your house to look better and better But unfortunately it never looks that awesome It doesn't turn into something that you're proud of and want to see everyday because you didn't start with a plan or design in mind This is at least what happened to me in my Minecraft worlds If I didn't have a well thought out plan beforehand my house would never turn out as well as I wanted That's why I have created a series of blueprints that tells you exactly how to build the house you want Layer by layer we clearly show where to place each block and how many of each block you need Here's how it works We give you a variety of different houses to choose from all with their own unique styles and complexities Take a moment to search through the different options we provide completed pictures for you to choose from You jump to the picture of the house you like the best and want to build Once you pick your house we will tell you what materials you need and how many blocks of each material you need to collect From there start collecting materials or start building in creative Or you can start building with what you have and collect materials along the way From there the construction of the house is crazy simple We start with layer 1 Each layer of the house is shown to you with a bird's eye view so you can clearly see which block goes where Each photo is complemented with a descriptive text version of what you need to do in that layer Then step by step layer by layer we will build the house to the top These blueprints were designed to be as clear and easy to follow as possible Because building a well designed house is hard work Finding all of the materials along with knowing what to use at which time can get confusing That's why you should start with a plan design and goal in mind This is especially relevant if you are playing multiplayer Don't be that player that builds the ugly house on the block Build something amazing that other players are jealous of and compliment you for The days of ugly houses are OVER It's time to get started and get excited about your new Minecraft home Just listen to what our other Minecraft readers have to say This ebook is amazing The images display what you need to construct so clearly Building the house was so simple and it looks better than everyone else's on our server Tim G Drake PLEASE MAKE MORE BLUEPRINTS I always built awful houses and

could never be happy with them or figure out how to improve them Now I m really happy with the village I built John S Keep it up and keep them coming Drake Craft Another great series of houses to build I m super excited Whitney M Happy Crafting
