Ib History Paper 1 2011:

Stalin's Early Cold War Foreign Policy Jamil Hasanli, 2022-07-14 Immediately after the Allied WW2 victory in Europe claims were made by the Soviet Union over the eastern regions of Turkey to secure direct control over the Bosphorus Dardanelles and Turkish Straits The detailed study of the international components of these events featuring the veiled complexities of Stalin's anti-Turkish diplomacy provides a key to understanding crucial aspects of these Soviet territorial claims Iranian Azerbaijan became another hotspot of post-war confrontation between the western Allies and the USSR Soviet policy towards Iran manifested in the desire to access their oil resources A further direction emerging within Soviet post-war strategy was the Kurdish issue in the Near and Middle East At the conjunction of Turkish and Iranian events Soviet secret service bodies and diplomatic institutions exploited their strengths and toyed with Kurdish minorities in the region Their decisions placed the bordering regions of China Turkey and Iran squarely in the shadowy reaches of Moscow's policy This research uses newly discovered archive material to illustrate the underlying intrigue behind Soviet ambition and intimately tracks how the Soviet Union was defeated in the first Cold War confrontation over its southern borders It also links events of this period with the critical issue of Uyghur assimilation and further contemporary developments highlighting Putin's policies making it invaluable for both academic and general readers

Reconstructions in Middle East Economic History Don Babai, 2024-10-24 This volume explores major theoretical and empirical themes in the study of the economic history of the Middle East Despite the relative neglect of economic history in Middle Eastern studies this book makes a case for its importance as a discipline of study On the one hand it shows promise in illuminating the economic base of historical trends and events on the other it can elucidate the historical foundations of economic continuity and change The chapters employ an array of theoretical and methodological approaches and ultimately demonstrate how economics and history along with political economy complement each other in studying the Middle East Among the substantive topics explored are the trajectories of the Arab Spring institutional change and economic development in the early Ottoman Empire the destructive effects of the reordering property rights in Iraq by the American-led occupation authority the evolution of the political economy of the Islamic Republic of Iran and the determinants of movements in the yields of Egyptian and Ottoman sovereign debt following political and economic crises in the 19th and early 20th centuries The book will be of interest to scholars and students of economic history political economy and the Middle East

and the Twilight Saga are well represented Visualizing Film History Christian Gosvig Olesen,2025-01-07 Though many archival digital objects were not born digital film archives are now becoming important resources for digital scholarship as a consequence of digitization Moreover with advancements in digital research methods involving video annotation visual analysis and GIS affecting the way we look at archival films material stylistic histories and circulation new research practices are more important than ever Visualizing Film History is an accessible introduction to archive based digital scholarship in film and media studies and beyond With a combined focus on the history of film historiography archiving and recent digital scholarship covering a period from the first wave of film archiving in the early 1900s to recent data art this book proposes ways to work critically with digitized archives and research methods Christian Olesen encourages a shift towards new critical practices in the field with an in depth assessment of and critical approach to doing film historiography with the latest digital tools and digitized archives Olesen argues that if students scholars and archivists are to fully realize the potential of emerging digital tools and methodologies they must critically consider the roles that data analysis visualization interfaces and procedural human machinery interactions play in producing knowledge in current film historical research If we fail to do so we risk losing our ability to critically navigate and renew contemporary research practices and evaluate the results of digital scholarship

Smith,2014-08-25 Colonial Girlhood in Literature Culture and History 1840 1950 explores a range of real and fictional colonial girlhood experiences from Jamaica Mauritius South Africa India New Zealand Australia England Ireland and Canada to reflect on the transitional state of girlhood between childhood and adulthood

Mexicano and Latino Politics and the Quest for Self-Determination Armando Navarro,2015-01-08 This book examines the current status of Mexicano and Latino politics in the United States Political scientist and community activist Armando Navarro maintains that both represent a dysfunctional and failed mode of politics attributable to their system maintenance and mainstream ideological orientation and approach As colonial agents they protect both a United States that is decaying and declining and the degenerative liberal capitalist system Navarro argues that the United States is not a representative democracy but in fact is a White Corpocratic Dictatorship controlled by Capital which is evolving into a Fascist State The book provides an in depth analysis and contention that Mexicanos and Latinos in Aztlan Southwest are an occupied and internal colonized people It argues they are the Palestinians and Kurds of the United States His supposition is sustained by the book s profiles of Mexicano political history demography socioeconomics electoral politics immigration and the Triad Crisis e g Second Great Depression Global Economic Crisis and Global Capitalist Crisis Each chapter provides the justification and case for Navarro s two unique alternative change models applicable to today s bankrupt and failed Mexicano and Latino Politics in the twenty first century The preferred model is Aztlan s Politics of a Nation Within a Nation APNWN which is based on the models of the Mormon Nation of Utah and that of French Quebec Navarro therefore calls for the reformation of the United States liberal capitalist system by way of social

democracy for the empowerment of Mexicanos and Latinos His second model is Aztlán's Politics of Separatism APS which offers two strategic options 1 Aztlán Southwest becoming a separate and sovereign nation state or 2 its reannexation and reintegration with Mexico Navarro outlines a plan of action for building a New Movement designed to attain APNWN or APS In addition several ominous forecasts are made such as the United States being in a state of decline and no longer a hegemonic superpower due to the rise of a multi polar world Moreover Navarro attributes the United States decline to the inherent contradictions of global capitalism His sobering message is that if the current economic conditions are left unchanged this will produce an End of Times scenario the unleashing of the Four Horseman of the Apocalypse *War, Welfare & Democracy* Peter J. Munson,2013-01-31 American foreign policy since World War II has actively sought to reshape both domestic and international orders to hasten the coming of the end of history in a peaceful democratic utopia While the end of the Cold War heightened optimism that this goal was near policymakers still face dramatic challenges In *War Welfare & Democracy* Peter J Munson argues that the foreign policy problems we face today stem from common roots the modern state system's struggle to cope with the pressures of market development and sociopolitical modernization Washington's policies seek to treat challenges as varied as insurgency organized crime fiscal crises immigration pressures authoritarianism and violations of human rights with a schizophrenic mix of realpolitik and idealism The ideologies that inform this outlook were born during the Great Depression and two world wars and honed during the early years of the Cold War Although the world has long since changed American policy has failed to adjust The world's leading welfare states face a crisis of aging populations shrinking revenues and spiraling costs in their attempts to provide services and social security for their citizens compounding this inflexibility By addressing the inequality of wealth security and stability brought on by dramatic economic change and modernization Munson describes how the United States can lead in reforming the welfare state paradigm and adjust its antiquated policies to best manage the transformation we all must face *Austrian Studies Newsletter* ,1989
