2. To enhance their skills of comparing and contrasting.
3. To learn the vocabulary related to compare and contrast.

Lesson Plan:

Before telling the students anything, let us start the lesson with an interesting activity. Show them the following image. Ask students, what can they see.

Of-course, they will guess it correctly. Here comes the big question- "Can you tell me of any similarities between, how are plants and trees same/ alike?" After they share few of the similarities tell them they just "compared" which means they just described how two or more (in this case plants and trees) things are alike or same. e.g.: Fruits and vegetables grows on **both** plants as well as tree.

Stress on the word "both" and tell them the word "both" means comparison.
