**American Christians and the National Interreligious Task Force on Soviet Jewry** Fred A. Lazin, 2019-08-07 This study provides the first in depth examination of the role and influence of American Christians in the advocacy efforts for Soviet Jewry during the 1970s and 1980s It explores how American Catholics and Protestants engaged with American Jews to campaign for the emigration of Soviet Jews and to end the cultural and religious discrimination against them The book presents a case study of the National Interreligious Task Force on Soviet Jewry from its inception to its closure in order to better understand the complexities of the politics of interreligious affairs during this period At the heart of the story is Sister Ann Gillen of the Society of the Holy Child Jesus who directed the Chicago based task force under the auspices of the American Jewish Committee The author provides a comprehensive look at task force activities programs and relationships notes its ties to the civil rights movement and offers in depth analysis of its participation and role in the global arena American political religious and ethnic leaders play prominent roles in this story along with the national media and countless religious and community groups across the United States The relationship between American Jews and Israel is a factor of fundamental significance as well and plays a critical role in the development of the Task Force This close up analysis of the task force is based on extensive archival research and interviews with key players in its history [Katharine Drexel and the Sisters Who Shared Her Vision](#) McGuinness, Margaret M., 2023 Although Katharine Drexel has been the subject of several biographies they have tended to treat her as a perfect human being whom the Church later transformed into a saint Katherine and the Sisters Who Shared Her Vision moves beyond the story of the heiress s individual life devoted to God and shines a light on the work she did assisted by the Sisters of the Blessed Sacrament Drexel could have lived comfortably wealthy and privileged as a Philadelphia philanthropist but chose to found a religious congregation of women dedicated to working within Black and Indigenous communities without receiving the bulk of the money left by Drexel s father The author s careful examination of the work Drexel and her Sisters accomplished in Philadelphia and elsewhere shows impacts on the Church while also revealing racial issues at work in the story This brings a critical perspective to Drexel s ministry to further our understanding of the Black Catholic community and renew our commitment to the difficult ongoing conversation about race in America

**Gender, Power and Identity in the Early Modern House of Orange-Nassau** Susan Broomhall, Jacqueline Van Gent, 2016-08-12 How do gender and power relationships affect the expression of family House and dynastic identities The present study explores this question using a case study of the House of Orange Nassau whose extensive visual material and archival sources from both male and female members enable the authors to trace their complex attempts to express gain and maintain power in texts material culture and spaces as well as rituals acts and practices The book adopts several innovative approaches to the history of the Orange Nassau family and to familial and dynastic studies generally Firstly the authors analyse in detail a vast body of previously unexplored sources including correspondence artwork

architectural horticultural and textual commissions ceremonies practices and individual actions that have surprisingly received little attention to date individually and consider these as the collective practices of a key early modern dynastic family They investigate new avenues about the meanings and practices of family and dynasty in the early modern period extending current research that focuses on dominant men to ask how women and subordinate men understood family and dynasty in what respects such notions were shared among members and how it might have been fractured and fashioned by individual experiences Adopting a transnational approach to the Nassau family the authors explore the family s self presentation across a range of languages cultures and historiographical traditions situating their representation of themselves as an influential House within an international context and offering a new vision of power as a gendered concept
