

Week 1

Diagnostics / Review

Part 1: Diagnostics

- Take the free diagnostics for all subjects
 - Math
 - Grammar
 - Vocabulary
 - Biology
 - Reading
 - Anatomy & Physiology (AAP)

Review your results:

For topics where you scored well, check these items and only make additional practice if you are still getting a low score.

For topics where you scored low, read your objectives in these sections and take them one by one. For all of the material listed in this section, the goal is to be able to do it on your own.

For the items you did well on, you should still review them at least once a week. If you score 80% or above on a test, it means you are doing well. You can now skip that part of your study plan, but you should still review it once a week.

You can also take topics which you scored lower on the diagnostics to see what you are weak on so that you can focus more on those items.

Part 2: Reviewing Each Subject

Go to the links in the appropriate study plan to review the following objectives during Week 1:
