Investigations of Allegations of Cheating on the FBI's Domestic Investigations and Operations Guide (DOIG)

Exam Carol F. Ochoa,2011-04 In Dec 2008 the FBI implemented a new DIOG which described the procedures its employees must follow when conducting domestic investigations The FBI implemented comprehensive training on the DIOG for approx 20 000 FBI agents analysts and technicians These employees were required to complete 16 5 hours of live classroom style training Moreover after taking this training the employees had to take and pass a written computerized 51 question exam concerning the DIOG Because of the concerns that there may have been widespread assistance given during the exam in January 2010 this investigation was begun related to the DIOG exam This is a print on demand edition of an important hard to find report

Introduction to Criminology Pamela J. Schram,Joseph A. Schwartz,Stephen G. Tibbetts,2023-10-24 If you are considering a career in any aspect of criminal justice and you want to know more about the motivations and socio psychological makeup of serious offenders then this book is for you Introduction to Criminology Why Do They Do It applies the dominant theories in the existing criminological literature as to why people commit crimes In addition we examine many recent as well as many hypothetical examples of serious crimes and we demonstrate applications of theory as to why the offenders did what they did While other textbooks do a decent job in discussing the basic theories as well as exploring the various types of crime our book integrates various street crimes within each chapter and applies theories that are appropriate in explaining such criminal activity This is extremely important because most instructors never get to the latter typology chapters in a given semester or term So our approach is to incorporate them into the theoretical chapters in which they apply directly to the theories presented Our specific examples and true stories such as notable serial killings and other recent crimes in each chapter as well as our use of established theoretical models to explain the offenses is another primary distinction of this book Obviously this book is meant to be central to an introductory course in criminology but due to the emphasis on applied theoretical explanations it is also appropriate for higher level undergraduate and graduate courses in criminological theory or as a reference for anyone in the field of criminal justice In it we have integrated true crimes and some hypothetical examples both on a general level such as in the Applying Crime to Theory sections and more specifically in the Why Do They Do It sections which often involve serial killings mass murderers or other notorious examples of offenders offending The subtitle of our book Why Do They Do It relates to our theme Our goal in writing this book was to apply established theories of crime which are often seen as abstract and hypothetical to real crimes that have occurred as well as to hypothetical ones that are quite likely to occur To this end we explore the various reasons for offending or the why they do it in various cases from the first documented serial killers in the United States the Harpe Brothers in the late 18th century to California cop killer spree killer Christopher Dorner in 2013 and then Payton S Gendron who massacred 10 Black shoppers at a grocery store in Buffalo New York in 2022 Importantly throughout these discussions of actual crimes we will apply theories

As you will see some of the theories that applied to the earliest crimes seem to apply to the most modern crimes as well Unlike other authors in this field we chose not to include separate chapters on violent or property crimes because we have worked those into and applied them to the theories explored in each chapter We strongly believe that by integrating discussions of such serious crimes all crimes previously identified by the FBI as Index or Part I offenses including murder rape robbery aggravated assault burglary motor vehicle theft larceny and arson as well as other crimes such as simple assault and driving under the influence into the theoretical chapters provides the best exploration of why people commit such offenses And the flip side is good as well by discussing offenses together with theories we show you how to apply theories toward explaining other instances of criminal behavior Again this goes back to our theme of why do they do it It demonstrates our goal Apply the appropriate theories for the specific crime

The Psychology of Hate Crimes as Domestic Terrorism Edward W. Dunbar, Amalio Blanco Ph.D., Desirée A. Crèvecoeur- MacPhail Ph.D., 2016-11-21 In this three volume set an international team of experts involved in the research management and mitigation of hate motivated violence examines and explains hate crimes in the United States and around the globe drawing comparisons between countries as well as between hate crimes overall and domestic terrorism The Psychology of Hate Crimes as Domestic Terrorism U S and Global Issues takes a hard look at hate crimes both domestically and internationally enabling readers to see similarities and disparities as well as to make the connections between hate crimes and domestic terrorism The entries in this three volume set discuss subjects such as the psychology and motivation in hate crimes the cultural norms that shape tolerance of outgroups or tolerance of hate and the fact that hate crimes are a pervasive form of domestic terrorism as well as myriad issues of proliferation public policy policing law and punishment and prevention The set opens with an introduction that discusses hate crime research and examines issues of identification of the bias element of hate crimes via empirical and case vignettes The subsequent chapters discuss subjects such as the socio demographic profiles of hate crime offenders hate crime legislation and policy in the United States the effects of hate crime on their victims as well as society the incidence of hate crime in specific regions such as Europe the Middle East and South America and programs and therapeutic interventions to heal victims Readers will also learn how specific educational approaches in communities schools and universities can be implemented to help prevent future escalation of hate motivated violence
