A Guide to Non-Jazz Improvisation:

Fiddle Edition Dick Weissman, Dan Fox, 2010-12-29 The non jazz improvisation series is a concept that germinated in Dick Weissman's mind while he was attending music school. He wrote a 15 piece arrangement of the old square dance tune Cripple Creek and wanted the trombone to take a solo as part of the arrangement. When the trombonist kept playing a bebop solo that was totally unsuitable for the chart, Dick realized that in addition to the many musicians who do not improvise, there are even jazz musicians who don't know how to improvise outside the limits of their own stylistic backgrounds. The non jazz improvisation series mostly includes new original tunes that are intended to show how to improvise in many musical styles including Blues, Country, American folk, Latin American, World music including South American, Eastern European and Asian, Odd meters playing in a variety of time signatures, New Age, Classical, Folk, Rock. In short, the books are an encyclopedia of virtually every musical style excluding jazz.

Irish Fiddle Playing Philip John Berthoud, 2015-08-18 The book is designed to make the personal aspects of traditional Irish fiddle playing, improvisation and interpretation accessible to novice players. Drawing on his experience writing out reels, jigs and other tunes for new players at a North London session and teaching fiddle, the author conveys what to do with tunes to make them your own. The first part of the book discusses such subjects as the language of traditional music, posture, bowing and effective practice with a detailed analysis of left and right hand technique. The second section is a selection of tunes that demonstrate the ideas in the first part. The aim of the book is to allow the player to look more closely at their technique while also improving accuracy and speed. A recording adds an extra dimension to the learning experience. [Complete Irish Fiddle Player](#) Peter Cooper, 2010-10-07 In his preface, the author reminds the reader that this is not a book for the absolute beginner. Even the experienced player may not get it on first reading of a given tune, but you can expect to enjoy the process of learning and experience the joy of recreating a traditional tune of making it your own. This is the teacher-student pact in effect throughout this marvelous book, written for the literary as much as the musical connoisseur. Although no classical violin experience is needed, you will need to know how to hold the fiddle and bow and be able to play at least simple tunes in the first position. Having the ability to read music will enable you to follow the bowing patterns and left hand techniques which the author feels are crucial in grasping the playing style.
